

KRYL BAND MADE CHAUTAUQUA HIT

CONCERTS YESTERDAY RECEIVED APPLAUSE FROM CROWD.

SPEAK ON CHINA AND SCHOOL NEEDS TODAY

Uel W. Lamkin Explains How Rural Education May Be Bettered—Ng Poon Chew Talks.

Tuesday, August 10.
7:30 p. m.—Acts from great plays by The Cambridge Players, followed by an hour of rapid fire art by Ross Crane in cartoons, clay modeling and talk.

Wednesday, August 11.
9:00 a. m.—Junior Chautauqua. Games and contests.

10:30 a. m.—Special address, "The Economic Value of Missions," by Dr. F. Q. Brown.

3:30 p. m.—A clever entertainment by S. Platt Jones.

8:00 p. m.—Speech, "Live or Die," by Byron C. Platt.

7:30 p. m.—S. Platt Jones in lecture, recital and song stunts.

8:15 p. m.—J. H. Balmer and his Kaffir Boys.

Thursday, August 12.
9:00 a. m.—Junior Chautauqua. Final Jant and Roundup.

2:30 p. m.—Popular concert by Sam Schildkret's Orchestra.

3:00 p. m.—Address, "The Impending Crisis," by Senator James K. Vardaman of Mississippi.

7:30 p. m.—Costumed exhibition of children of countries visited by The Junior Chautauqua Bunch.

8:00 p. m.—Sam Schildkret's Hungarian Orchestra.

9:30 p. m.—Address by William Jennings Bryan.

"Oh, for more of that kind of music!" was the almost universal comment of the hundreds of those who heard the Bohumir Kryl band concerts at the chautauqua yesterday afternoon and last night. The concert solos by Mr. Kryl especially those of the afternoon, were exceptionally fine.

The rendition of "Custer's Last Fight," and "The Village Blacksmith,"

NG POON CHEW.

with the use of electric anvils also were unusually good.

But one incident marred the evening entertainment, that being a slight delay during the concert, by the disconnection of the electric light wires on the platform, which threw the entire amphitheatre into darkness.

Today's entertainment is starting off good. After the usual hour devoted to the children by the Junior chautauqua supervisor, Miss Farnes Kheffer, an address on "The People and the

Orator and Statesman Here Thursday

WILLIAM JENNINGS BRYAN

The Maryville chautauqua which closes Thursday night, will have one of the best and biggest numbers of the entire week's program, as the final number Thursday night, when William Jennings Bryan, orator, statesman, and politician appears for an address. As added attractions that night there also will be a costumed exhibition of children of the various countries visited by the Junior chautauqua bunch, and

Public Schools," was given by Uel W. Lamkin.

Talks on Public Schools.
Mr. Lamkin is a specialist in this subject, as was demonstrated by his lecture here this morning. He is one of the most progressive school men of the middle west. He has served as inspector of high schools and is the only "country school" man, ever to be elected president of the teachers' association of his state.

He is also a member of the National Educational Association and of the National Society for the Promotion of Industrial Education. As a member of each, he has been unusually active. The afternoon program today opened with an unique entertainment by the Cambridge Players. The company is made up of Miss Laura Bitter, soprano; Mr. William Hamesworth, pianologist; Miss Martha Miller, reader, and Mr. Jesse Coffey, quick-change-and-make-up-before-your-eyes impersonator.

The entertainment by the Cambridge Players was followed at 3 o'clock by an address on "China and Her Problems" by Ng Poon Chew.

Tells of China and Problems.
Ng Poon Chew is a scholar and philosopher, an editor, a statesman, a Presbyterian minister and a man of affairs. Together with Dr. Sun Yat Sen, Ng Poon Chew had a great deal to do with the agitation and organization which resulted in the present Chinese Republic.

This gives weight to all the lecturer has to say. He is an able speaker in English, and he uses the correct English idiom with a delightful foreign accent.

Dr. Ng thinks that the Chinese revolution is the greatest event that has ever occurred in history. In four months a government had been overthrown whose roots were more ancient than any other government or dynasty

FIX MEXICO POLICY

CONFEREES AGREE ON PROGRAM TO END MEXICAN DISTURBANCE.

MAY RESULT IN PEACE

Various Factions in the Southern Republic to be Considered in Arrangement—U. S. Supports.

Washington, Aug. 10.—A very definite policy as to Mexico has been agreed upon by the Pan American conference, Secretary Lansing announced. "The conference adjourned because I wished to consult President Wilson about it," he said. "I have consulted the president and the conference will be resumed." Mr. Lansing would not disclose the conference plans.

The confidence expressed by officials generally here that the conferees who were representing the United States, Brazil, Argentina, Bolivia, Guatemala and Uruguay will be able to shape a course likely to bring peace and restore constitutional government in Mexico is due to the fact that all are agreed that most of the people of the revolution-torn republic are thoroughly sick of war, and with encouragement from friendly powers will promptly join in a movement to clean house.

A large section of the country and many people have not been involved in the fighting which followed the overthrow of Huerta. Moreover, it has been reported to President Wilson that only the fear of reprisals by the military chieftains has kept the people in subjection while the country has been impoverished by the battles of relatively small forces of armed men.

All Factions Considered.
Reaching their conclusion on these reports, the Pan-American conferees are understood to have determined to present the situation to all of the various elements in Mexico, addressing directly not only Generals Carranza, Villa and Zapata, but the governors of states, all military leaders with any considerable following, and other influential men, urging them to come together for a caucus at which a substantial provisional government might be framed.

A government so set up would have the support of the United States and other American republics. Officials here believe it would be able to suppress promptly any dissatisfied groups which might attempt to continue civil strife. It is hoped that none of the important chiefs will offer opposition to the plan, but if trouble does develop and action is necessary by the American powers, the conferees believe they would have the support and approval of the civilian population of Mexico in any step which might be taken to assure the restoration of peace.

Carranza officials here said the Brazilian minister at Mexico City, the only diplomatic representative of the United States in Mexico, has been withdrawn by his government because General Carranza was prepared to expel him from the country, as he did Sener Ortega, the Guatemalan minister.

BOLCKOW-GRAHAM GAME CALLED.

Play Match with Pick Up Team—Country Teams Play Morning Game.

The game set for Sunday afternoon between the Bolckow and Graham baseball teams, was called off on account of the inability of the Bolckow team to reach Graham. A game between a pick-up team and the Graham nine resulted in a score of 6 to 7 for the Graham team. In a game yesterday morning at Graham played between the North and South country teams the score was 5 to 6 for the South team.

COUNTY TEAMS PLAY SUNDAY.

Burlington Junction Boosters Beat Clarinda, Ia., Team.

The game played between Maitland and Skidmore teams Sunday afternoon at Skidmore finished with a score of 14 to 13 for Skidmore. Next Sunday afternoon, the Arkoe and Skidmore teams will play a game at Skidmore. The Pickering nine defeated the Parnell team in a game at Pickering Sunday afternoon.

The Burlington Junction "Boosters" won over the Clarinda, Ia., nine by a score of 2 to 1 in the game at Bever Park Sunday afternoon.

Guests at Landfather Home.

Mrs. Henry Clayton and children of Washington, D. C., arrived in Maryville Sunday night to visit Mrs. Clayton's sister, Mrs. Louella Landfather and children of West Fourth street.

Guest of Harvey McClary.

H. P. McClary, Jr., of Windsor, Vt., arrived in Maryville Saturday to spend a few days visiting his brother, Harvey McClary.

IS VICTIM OF TYPHOID.

Funeral Services for Miss Mary Hartness of Burlington Junction Tomorrow.

Funeral services for Miss Mary Hartness, 16 years old, the daughter of Mr. and Mrs. Grant Hartness of Burlington Junction, who died last night will be held at 1:30 o'clock tomorrow afternoon at the Christian church of Burlington Junction.

Miss Hartness has been ill for several weeks with typhoid fever. She is survived by her parents and two sisters, Misses Eva and Beulah Hartness.

John Hayes of Skidmore was in the city today looking after some business interests.

TEST NORMAL SOIL

EXPERIMENTS SHOW "SMOOTH" GRAIN SPROUTED LESS.

YIELDS RANGED WELL

Mealy, Michigan Amber, and Jones Red Wave Averaged About 38 Bushels to Acre—Quality Is Poor

The Normal has finished its wheat threshing, and the yield ranges from 38.65 down to 23.7 bushels per acre for that grown on untreated soil and from 34 down to 28 bushels per acre on the fertilized or treated soils, according to a report today of R. A. Kinnaird, now head of the agricultural department.

On account of the unusual weather this summer, however, the quality of the wheat was materially reduced, although the yields were better generally than those last year. The results show that the wheat varieties that had the stronger stiffer straw, stood up through the storms better and therefore less of that grain sprouted, making the quality better.

The records of the yields were taken by Prof. A. R. Evans, in charge of the outlying crop fields of the Missouri State Experiment station at the University of Missouri. The threshing was begun Friday and completed yesterday. The engine was furnished and operated by Bert Hyatt, and the Normal thrasher used.

Quality Ran Low This Year.

The wheat qualities ranged from 50 to 60 pounds to the bushel, while last year, it was slightly above this. This would make all test as No. 3 or No. 4 on the market.

Two kinds of fields were used by the Normal in the experiments. One is known as the soils in which there were ten different plots or fields in which different fertilizer treatments are used. The other is untreated soil. The aim in the wheat crops of the treated fields, is merely to test out the fertilizers and not the wheats, while on the crops fields, the aim is merely to determine which variety of wheat yields best.

This year, the records of yields by the nineteen different varieties, show that the smooth or "beardless" wheat stood up better and sprouted less and therefore a better yield was made, although in a normal year, it might be reversed.

The yields of the nineteen different varieties of wheat grown on the soils fields, ranged as follows, the first yielding 38.65 bushels and the last 23.7 bushels to the acre: Mealy, Michigan Amber, Jones Red Wave, Harvest Queen, Rudy, Dietz, Pools, Mediterranean, Harvest King, Poole, D-3, Turkey, Michigan Wonder, Fult, Fulcaster No. 15, Early Ripe, Fulcaster, Lebanon, Early Ripe No. 29, Beachwood Hybrid, Smooth Wheat Yielded Best.

The first four mentioned varieties are beardless kinds. The Dietz variety made the best yield last year, Prof. Kinnaird reports.

To accurately determine the yields, each variety is sowed a drill width in three separate parts of the field, harvested separately, shocked separately and threshed separately. This prevents any from being mixed as wheat will not cross pollinate no matter how close together two or more may be.

The wheat will be fanned and cleaned and all needed will be used to sow next fall on the Normal Experimental farms, Prof. Kinnaird reports. All that remains will be sold on the market or shipped to other experimental farms for seed.

This Soil Yielded Best.

In the soils tests, the results this year showed that a certain plot which had been limed three years ago and received 150 pounds of bone meal and 50 pounds of phosphate to the acre made the highest yield. Only the Poole B-3 variety of wheat was sown on the ten soils plots.

PLAN NEW NORMA COALSHED

Move Wabash Switch Track to North, Making Room for New Building.

A force of Normal workmen began grading this morning for the moving of the Wabash side track about twelve feet farther north of the Normal power house, so as to make room for a new coal shed to be erected there this summer.

The Normal workmen are to do the grading for the improvement while the Wabash will transfer the track. By building a new coal house, it is believed sufficient coal can be stored in the fall to last through the winter, or at least for a much longer period than heretofore.

BOOSTERS TO PLAY BARNARD

Maryville Baseball Nine Strengthens Line Up for Contest at Normal Grounds Thursday.

The Maryville Boosters are strengthening the baseball lineup considerably for the game scheduled for Thursday afternoon at the Normal grounds with the Barnard M. W. A. team. Besides the old players there will probably be Rapps, now with the Federals, on the third sack, perhaps, Richardson, Federal catcher, and Reudy, who played center field for the St. Joseph Tip Tops here Sunday.

The line up will probably be as follows, according to Walter Wray, manager: Wakeman, p; Wogan or Richardson, c; Wray, 1b; Still, 2b; Rapps, 3b; Palfreyman, ss; Vandersloot, lf; Scott, or Reudy, cf; Moore, rf.

HE HAS MODEL DAIRY FARM

Senator Anderson Craig Invites Patrons to See Butter Made—Has Pneumatic Milkers.

An invitation for anyone to witness the making of butter on his model dairy farm, any morning or afternoon, was extended publicly today by Senator Anderson Craig, who last week took active charge of his farm northeast of Maryville, and moved thereon. But to see the morning process of getting milk—later butter—from the forty odd cows on the place, one must go in the early morning hours, 4:30 to be exact.

Or if you are not of the nocturnal species of human being, you may hie yourself to the Craig farm at the same hour in the afternoon, any day, Sunday and holidays included. For all days are alike on a dairy farm.

To get some idea of the manner in which dairymaking is carried on at the Craig farm, it might be stated that three pneumatic milking machines "strip" the forty and more cows, mostly Holsteins, in about an hour, a steam separator separates the milk from the cream in about twenty minutes and an electrically operated churn converts the cream into butter in about eleven minutes. It turns out about sixty pounds of butter in each operation.

So that from the start to the finish—milking, separating and churning—but about one and one-half hours' time is consumed. Senator Craig says the dairy herd gives an average of 80 to 100 gallons of milk daily, which converted into butter makes about 250 pounds per week.

But that is not the most noticeable thing, one sees on a visit to the Craig dairy farm. The most conspicuous and interesting "find," is the extreme cleanliness of the barns and milk receptacles, which renders the whole absolutely sanitary and insures uncontaminated products.

CHAUTAUQUA MANAGERS HERE.

Redpath-Vawter Officials Arrange for Next Year's Attraction.

Keith Vawter and J. Robert Cornell of Cedar Rapids, Ia., officers of the Redpath-Vawter Chautauqua System arrived in Maryville to attend the chautauqua session here and arrange for next year's attraction.

A number of business men of the city were interviewed today relative to securing next year's chautauqua, when almost an entirely new program is promised. It is believed that the Redpath-Vawter System will again be favored.

Cox Family Here.

Mr. and Mrs. Ben Cox and family, living near Ravenwood, were visiting in Maryville today. Mr. Cox recently purchased a new touring car.

Oral Awalt of St. Joseph is visiting relatives in Maryville and Pickering.

CHANGE 5 SCHOOL TEXT BOOKS HERE

NEW GRAMMAR AND WRITING BOOKS FOR GRADES IN COUNTY

ADOPT 3 NEW WORKS IN HIGH SCHOOLS TOO

First Latin, Rhetoric and Geometry to Be Different—Add Commercial Geography—Use Next Term.

Several changes in the text books used in the grade and high schools of Nodaway county were made late yesterday afternoon and this morning by the Nodaway County Textbook Commission, composed of Bert Cooper, county superintendent, Dean G. H. Colbert of the Normal and George W. Somerville, principal of the Clearmont schools.

The contracts for the changes, being made today, provide that the next text books shall remain for five years. They are to be ordered at once so that all new books may be on hand over the county two weeks before schools open, the first week in September. The books they replace may be exchanged for the new ones at a discount for one year, beginning today.

Those replaced have been in use in the public schools of Nodaway county for ten years and had become quite antiquated. While it is not compulsory for the approved high schools of the county to adopt the books contracted for by the textbook commission, it is believed that all will do so.

Add Supplemental Books Too.

The only unapproved high schools in the county are those located at Ravenwood, Guilford and Quitman. There is some talk of placing the Pickering high school again on the unapproved list.

Fifteen book publishing companies were represented at the meeting of the textbook commission by personal representatives, while several more put in bids by mail. The changes ordered by the commission are the first in three years.

Besides making several changes in text books, a number of supplemental books, for reference, also have been contracted for. They will probably be placed in the libraries of most of the schools or kept by the teachers, but need not necessarily be purchased by the pupils.

Here Are the Grade Changes.

In the grades, the "Mother Tongue" book will be replaced by the grammar and language book, entitled "Live Language Lessons," published by the University Publishing company and compiled by Driggs. There are three books provided, though only the second and third will probably be used in the majority of the schools.

Book one will sell for 38 cents retail or 27 cents in exchange. Books two and three will sell each at 42 cents retail or 30 cents in exchange. The "Mother Tongue" books sold at 40 cents and 52 cents, so that each student will save about a dime hereafter in grammar text books.

Reed & Kellogg's Higher Lessons in English, will be provided as a supplement in grammar, though need not be purchased by pupils. It will sell at 60 cents retail.

William's Reading, Conversation and Composition, also will be added as a supplement in language reading.

The Economy muscular movement style of penmanship or writing, will supplant the present New Era style. It is a cross between Spencerian and vertical systems of writing. The books will sell at 13 cents each, including 50 sheets of paper. Additional paper costs 5 cents per 50 sheets. There will be about three different sets adopted.

High School Text Changes.

Several changes also will be made in the high schools as follows: Collar & Daniels, first year Latin will be supplanted by the work of D'Ooge. The retail price will be 92 cents and the exchange price 60 cents.

Herrick's & Damon's first and second (Continued on page 2.)

* THE WEATHER *

Rain tonight. Wednesday generally fair.

Craig's Dairy Butter

Delivered three times a week at 30c a pound. All customers invited to come and see how and where this butter is made. Full weight and quality guaranteed. Cows are milked with electric machine, stables washed every day. All vessels and cans steamed immediately after using. Forty degree cement cooler built in ice house. No cream allowed to sour until ready to churn. All milk strained through a number of thicknesses of cheese cloth. Come and see us do it, and you will have no other butter. My name and guarantee on every pound.

CANCER IS NOT HEREDITARY.

Medical Journal Says Worry in Family With Cancer Patient Is Needless.

Perhaps nothing causes more needless worry than the fact that one or more persons in a given family have died from cancer. This is commonly taken as proof that the disease is hereditary. This does not at all follow.

There is probably no greater chance of inheriting cancer than there is of being killed by lightning or of breaking one's neck falling down stairs. Perhaps there are people who worry even about those contingencies but the statisticians have shown that such fatal accidents are extremely rare. People who are concerned because their relatives have succumbed to cancer fail to consider how widespread the disease is.

A malady that causes one death out of every eight among women and one out of every fourteen among men over forty is fairly common. On this basis it does not take much arithmetic to figure out how likely it is that cancer will occur many times in some families. The eminent statisticians, King and Newsholme, have pointed out that it does not prove heredity to show that in one family, five deaths occurred from cancer.

By the frequency of the disease, and the laws of chance, such cases would be expected even if no one had ever suggested the idea of heredity. It can be mathematically demonstrated that if a sufficient number of people start to toss coins it is a certainty that at least one of them will toss 1,000 consecutive "heads."

So with cancer; given a sufficient number of families it is certain that many members of some few families will die of this disease. Therefore, it is not necessary to assume that the disease is inherited to account for its frequency. Sometimes this fallacy crops out when certain notable cases, such as that of the Bonaparte family, are cited.

It should be remembered that the rarity of such cases are so noticeable that they are remembered. If the cancer tendency should disappear in such a family no further attention would be paid to the spread danger.

If such family histories resulted from actually inheriting the disease, rather than from chance, they would be far more commonly reported. It is possible that certain forms of malignant disease may, under rare conditions, be transmitted to the child. Cancer is a very large word, covering a number of widely different diseases.

It may be, also, that under highly artificial conditions of inbreeding mice a certain susceptibility to tumors may be inherited. Nevertheless, as applied

Guess Work Is DANGEROUS In Fitting Glasses

The old way of fitting glasses by guessing at the kind needed was often more harmful than going without them. NO GUESS WORK NOW. I submit the test, the correction, and the cost to you before you are asked to pay a single cent. You take no risk nor incur any obligation by coming to me about your eyes.

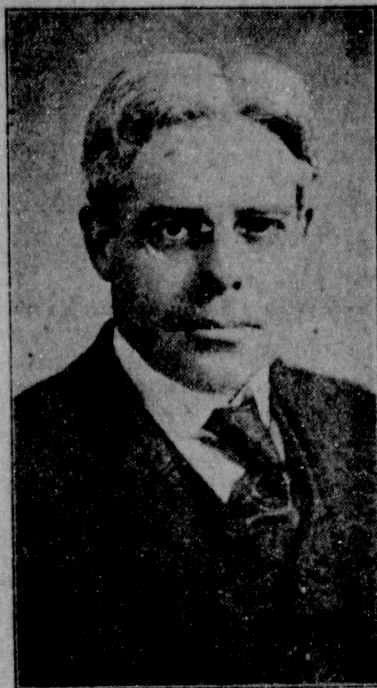

Save The Baby Use the reliable HORLICK'S ORIGINAL Malted Milk

Upbuilds every part of the body efficiently. Endorsed by thousands of Physicians, Mothers and Nurses the world over for more than a quarter of a century.

Convenient, no cooking nor additional milk required. Simply dissolve in water. Agree with other foods often fed. Sample free, HORLICK'S, Raisins, etc. No other Malted Milk is "Just as Good" as HORLICK'S, the Original.

AUTHOR OF "HEART OF THE BLUE RIDGE" HERE

WALDRON BAILLY, Author.

Waldron Bailly, a commercial salesman for the Grosset & Dunlap Book Publishing company, and likewise the author of "Heart of the Blue Ridge," one of the latest "best seller" works of fiction, just out, was in Maryville Sunday and yesterday to visit with friends and attend the chautauqua.

Mr. Bailly is a personal friend of

to human beings and in the practical view, the foremost authorities believe that heredity in cancer may be regarded as a negligible factor.—Journal American Medical Association.

Mica Deposits in United States.

Mica mining in the United States began with the opening of the Ruggles mine, in Grafton county, N. H., about 1803. Later other mines were opened in New Hampshire, which for many years furnished practically all the mica in this country. A report by Douglas B. Sterrett, recently issued by the United States Geological Survey, describes the Ruggles mine as well as other mica deposits in the United States.

Mica is a valuable mineral in the industrial world, where it meets a demand not supplied by any other material, so that the sources of supply are of both present and future importance.

Many good mica deposits are known in the United States and the production is increasing. The imports of mica are generally greater than the domestic production, but the mica mines of this country could be made to supply all but that small part of the domestic demand which calls for the softer Canadian "amber" mica.

Good mica mines have been worked in North Carolina, New Hampshire, South Dakota, Idaho, New Mexico, Virginia, South Carolina, and Alabama, and promising deposits are known in several other states.

A thousand dollar prize is offered through the American Social Hygiene association of New York City for the best original pamphlet for boys and girls between 12 to 16 years of age on the problem of social hygiene.

Returns to Barnard.

Mrs. Robert Hilsabeck has returned home after a two-week's visit with her parents, Mr. and Mrs. Wolfers, living east of Barnard.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists, 75c. Take Hall's Family Pills for constipation.

HAVE YOU ONE OF Engelmann's Ferns IN YOUR HOME?

We invite you to look over our large selection of Ferns in all sizes from 25c to \$2.00 each and call your special attention to the nice specimens at 50c, 60c and 75c each. Fresh cut flowers for any occasion in appropriate arrangements our leading specialty at all seasons of the year.

The Engelmann Greenhouses
1801 E. MAIN ST. PEWEE

H. T. Crane, stationer, here and also conferred with the Nodaway county textbook commission relative to the adoption of certain books in the schools of the county.

The work of Mr. Bailly is also being dramatized now by the World Film company and will soon be released. It will probably be shown here early next fall.

PROVIDE A SCHOOL MUSEUM.

St. Louis Educational Board Uses Modern Method to Advance Ideas.

A traveling museum that goes to the public schools with illustrative material at the time it is needed is successfully used by the St. Louis, Mo., schools, according to a bulletin issued by the U. S. Bureau of Education.

It was the Exposition of 1904 that first gave St. Louis the opportunity to extend to its schools the educational advantages of a great museum. After the fair had closed a number of the exhibitors donated parts of their displays to the public schools, and in this way the nucleus of an educational museum was obtained.

After the material for the museum had been grouped, the question of using it most profitably had to be settled. As it was found impracticable to supply every one of the hundred public schools of the city with a separate museum, it was decided that there should be one museum for all the schools and that by means of an automobile truck the museum material should be sent to the various schools.

The museum is arranged in close connection with the course of study followed in the schools. Among the groups of exhibits are: "food products, material for clothing, mounted animals, the life and occupations of different people of the world," charts and colored pictures illustrating history, minerals and ores, and charts illustrating geography, astronomy, and physiology." The museum reports show that in point of popularity the pictorial charts and the display of mounted birds come first. Material for clothing and the exhibit on food products come next in order of demand.

The museum of St. Louis has 7,000 individual and duplicate collections; 4,000 lantern slides; 8,000 stereoscopic views and 2,000 colored charts and photographs. The school authorities make a point of the fact that there is nothing in the traveling museum which can not be used in direct connection with the work of the schools. It contains no curiosities nor abnormalities, no freaks of nature.

The main purpose of the museum is to bring facts home to the pupils as realistically as possible. Thus by means of the cotton exhibit the children are taken to the cotton field, where they study the plant, the method of preparing the soil, the harvesting to the cotton gin, where the seed is separated from the lint; to the market to see the baling and shipping; to the cotton factories, where the lint is spun and woven into fabrics; and to the refineries to learn how cottonseed oil, oil cake, cottonlens, and soap are made. The supply of the demands for cotton goods is shown by a comparison of the crude implements used by the inhabitants of the Philippine Islands with the magnificent machinery in the large eastern factories as pictured by the stereoscope and lantern slides.

Coal Mined in Georgia. The coal mined in Georgia in 1914 amounted to 166,498 short tons, valued at \$239,462, as compared with 255,626 tons, valued at \$361,319 in 1913. The coal production of Georgia has fluctuated greatly from year to year since 1876, when it first exceeded 100,000 tons.

Miss Marjorie Trout of Tarkio is visiting in the city with her cousin, Miss Mary Margaret Richey.

Mr. and Mrs. Otis Gray of Parnell spent yesterday in Maryville visiting Mr. Gray's mother, Mrs. Rebecca Gray.

APPEALS ON ACCOUNT SUIT.

Williams of Arkoe, Dissatisfied with Justice Verdict for S. C. Clark, Maryville.

An appeal to the circuit court was filed today by G. M. Williams, S. B. Williams and Daniel Williams of Arkoe who were sued for \$85.35 by S. C. Clark, garage and automobile repair man here, in Justice W. L. Johnson's court recently. A jury in justice court allowed Clark \$60.25.

The suit was to recover a bill for that amount alleged to be due for the repair of automobiles and furnishing automobile accessories and supplies.

MRS. NOAH JENNINGS DEAD.

Came Here From Kansas City—Died at the Home of Brother.

Mrs. Noah Jennings of Kansas City, died at six o'clock this morning at the home of her brother, Gabe Allen on East Fourth street. Mrs. Jennings came to Maryville about six weeks ago for treatment. The funeral services will be held at 2:30 o'clock tomorrow afternoon at the Myrtle Tree church, east of Maryville, conducted by the Rev. S. D. Harkness, pastor of the First Presbyterian church. The body will be buried in the Myrtle Tree cemetery.

Mrs. Jennings is survived by her husband, who has been with her since her illness, and by one daughter and two sons. The Jennings family are former residents of Maryville.

GET DATA ON DEEP WELLS.

Engineering Experts of University Obtain Information of Artesian Water in State.

The department of geology and the engineering experiment station of the University of Missouri are now obtaining information on all new deep wells that are being drilled in the state for artesian water.

"It is hoped in time to collect complete information for permanent record as to the occurrence of artesian waters in the state of Missouri," says E. J. McCausland, dean of the School of Engineering. "This is a matter of prime importance to the small towns of the state whose population is now served with water from surface streams subject to possible contamination."

Wherever a deep well is being sunk in Missouri, a representative of the geology department is sent to get samples of the strata. These samples are filed in cases at Columbia.

In time it is hoped that sufficient information will be obtained to enable Missourians to find out where water can be obtained and at what depth.

Mineral-Water Trade in 1914.

The annual report on the production of mineral water in the United States, which has just been compiled by R. B. Dole, of the United States Geological Survey, from reports received from spring operators, shows that 54,358,466 gallons of mineral water, valued at \$4,892,328, was bottled and sold in 1914. The water was marketed for both medicinal and table use and ranged in composition from the purest of table beverages to the strongest mineralized waters in the country. In addition to this quantity, 6,261,743 gallons of mineral water was consumed in the manufacture of "soft drinks."

Return to Kansas City.

John McShane and Charles Geary of Kansas City, who have been visiting at the home of Mr. McShane's grandmother, Mrs. John Vaughn, and his aunt, Miss Katherine Vaughn, left for their home this morning.

To Visit at Elmo.

Miss Bessie Vail of Elmo returned to her home today after a week-end visit at Barnard with Miss Bertha Richey. She was accompanied by Miss Richey, who will spend the remainder of the week at Elmo.

Miss Jackson Called Home.

Miss Docia Jackson of Hardy, Ark., who has been a house guest of Mr. and Mrs. Roy Wolfers of Pickering for the past week, was summoned to Hardy, today by the serious illness of her mother. She was accompanied on the return trip by Fred Wolfers of Pickering.

Frank Wallis of Pickering left yesterday for a few weeks visit in Colorado.

JOPLIN WOMAN IS RESTORED BY REMEDY

Mrs. Hillman Took Treatment Two Years Ago—Has Been Well Ever Since.

Mrs. Ida Hillman of Joplin suffered from stomach ailments for twelve years. She followed the advice of several expert physicians and took a great deal of medicine. Two years ago she discovered Mayr's Wonderful Remedy—and she has been well since. Mrs. Hillman took but a few doses. She writes:

"I suffered with stomach trouble almost twelve years. I tried many doctors, but received no help until, while in Cleveland, Ohio, I read your notice in a paper and concluded to try Mayr's Wonderful Remedy. Since then I have felt like a new woman."

"I took only four bottles, but that was all that was needed to make me well. It has been almost two years and I have had no return of my trouble."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

CHANGE 5 TEXT BOOKS

(Continued from page 1.)

year rhetoric will replace that by Sykes. It will cost 87 cents retail or 60 cents in exchange.

Ford & Ammerman's geometry will replace that by Phillips and Fisher. The plane geometry books will cost 73 cents retail or 48 cents in exchange. The combined plane and solid geometry book will cost \$1.15 retail or 75 cents in exchange.

A new text on commercial geography by Brigham, will be added. It may be used in the last three years of high school work, and is optional as to whether a school shall adopt it.

In literature a text by Moody, Lovett and Boynter is provided to use in the place of the present book, by McNeill & Lynch, if a school so desires.

COMETS BEAT PIRATES 10-7.

"Kid" Baseball Teams Stage Contest—Cook and McManus Pitch.

The Comets defeated the Pirates, both "kid" teams, at Federal park yesterday afternoon by the score of 10 to 7. The battery for the Comets was Cook and Egley. The battery for the Pirates McManus and Yeaman.

12-FOOT WEEDS ON A STREET.

Councilman Wins Bet in Presentation of Mammoth Stalks From East Ward.

W. A. Tindall, councilman, bet H. L. Raines, another councilman and member of the street committee, that he could find some unusually tall weeds growing along one of the principal thoroughfares of the city. So this morning Mr. Tindall presented to Mr. Raines a number of horse weed stalks which measured approximately twelve feet high.

They were gathered on East, Third street off the Murray lots. Mr. Tindall said, and only a few feet from the sidewalk. Mr. Tindall placed them on exhibition at Raines' jewelry store.

Mr. and Mrs. Shockley Home.

Mr. and Mrs. J. L. Shockley living south of the city, returned yesterday from a visit of several weeks with relatives at Seattle, Wash. They also visited other places of interest in the west.

OBITUARY.

J. W. Baker died July 5, at the family home 315 West Second street and was buried in Miriam cemetery July 7, 1915. The funeral services were held from the residence conducted by the Rev. John H. Hubbard, pastor of the Buchanan Street Methodist church. The relatives attending the funeral were the widow, Mrs. J. W. Baker, two sons and four daughters and their families. They were William Baker and family

of Omaha, Nebr., J. A. Baker and wife of Oskaloosa, Ia., Mrs. W. A. Wright, of Shawnee, Okla., Mrs. W. H. Graves of Glencoe, Okla., Mrs. C. E. Pray and family and Mrs. T. C. Thackeray and family of Grant City, Mo. One daughter, Mrs. G. M. Price of Winfield, Okla., was unable to be present on account of illness. Beside the family present one brother and sister attended. They were M. V. Baker and Mrs. Rachel Adams of Barnard. Mr. Baker was also survived by two brothers, C. E. Baker of Maitland, Nathan Baker of Barnard and Mrs. Jacob Elmsinger of Savannah, all of whom were unable to attend the funeral.

Mr. Baker was born in Platte county, Mo., in 1843. His grandfather, Nathan Baker, who was one of the earliest settlers of North Carolina, died in Missouri in 1819. Mr. Baker was married at Garham, Mo., in 1866 to Sally A. Matherly, who survives him.

Mr. Baker purchased a farm 2 miles west of Barnard and made that his home for 36 years. In 1903 he came to Maryville and purchased a ten acre place at the south edge of the city and lived here for a few years when he purchased his town home. For six months previous to his death, he had been an invalid.

Local Men Got "In Bad."

Harry Hastings and Anthony Welch, who said they came to St. Joseph from Maryville, Mo., were given three hours in which to get out of St. Joseph by Police Judge Allee this morning. They were arrested by Cycle Officers Reardon and Deaton for begging in Wyatt Park.—St. Joseph News-Press.

A Baby Show at the BOOSTER STORE

The prettiest baby will receive a gold ring, and its mother will receive a 42-piece dinner set.

Which is the prettiest baby in this community? We are unable to tell, and wouldn't dare tell even if we could. Every baby is pretty, so we'll have to take a vote on it. During the Baby Show any person casting Booster Coupons for a Booster may write on the back of the coupons the name of the baby for which he or she is voting. The baby for which he or she is voting will be given the number of votes indicated on the face of the coupons.

1. Every baby is pretty, therefore every baby may enter this contest.

2. The baby Show is limited to babies LESS than four years of age.

3. Each baby entered must be brought to the store some time during this show.

4. Standing of babies will be posted each MONDAY.

Come to our store for full explanations. Boosters help some mother, and she'll help you.

The BABY CONTEST begins Monday, August 16th and closes Saturday, September 4th, at 11 p. m., when the ballot box will be closed and the votes counted.

The Patron Club, headed by Booster LILA TABLE, won first place last week. Booster REBECCA SHELL'S Club also won eleven silverware certificates.

Each Patron Club is pulling hard to win, for never before was there such an opportunity to get this beautiful Rimeon L. & Geo. H. Rogers table silverware free.

Our Patron Club Specials for Wednesday are UNDERWEAR and HOSIERY.

BELGIANS FORCED TO WORK IN ARSENALS

Germany Charged With Violation of the Hague Rules.

Paris, Aug. 10.—A report of the Belgian committee investigating violations of international law, issued here by the Belgian legation, is devoted to instances of alleged violations by Germans of the Hague convention, governing the laws and customs of land warfare.

Examples cited cover alleged German attempts: First, by offering wages as high as 20 marks (about \$5) a day and finally by force, to compel Belgian civilians to work in arsenals, on railways used for military purposes and in wire factories.

The report gives details of alleged violations at Luttre, Malines and Swevedhem quotes the text of an order, asserted to have been signed by Lieutenant General Count von Westphal, the German commander at Ghent, dated in that city, June 10, in part, as follows:

"The attitude of certain factories which, under the pretext of patriotism, relying on the Hague convention, refuse to work for the German army, proves that among the population there is an inclination to raise difficulties for the administration of the German army. In this connection I inform you that I will suppress such maneuvers by all means in my power."

OKUMA DECIDES TO REMAIN

Japanese Premier Agrees to Stay in Office and Arranges Cabinet.

Tokyo, Aug. 10.—Premier Count Okuma virtually has decided, at the special request of the emperor, to remain in office and has arranged a new cabinet.

The assumption of Count Okuma of the foreign ministry following the declaration of Takaaki Kato to retain that portfolio is to be temporary, pending the selection of a permanent minister.

It became known that the emperor had requested Premier Okuma to remain in office and that the premier had agreed provisionally to do so. His acceptance was contingent upon the construction of a cabinet acceptable to him, and announcement was made of his arrangement of the new cabinet.

French Troops Gaining in Kamerun. Paris, Aug. 10.—Encircling operations by French troops against German forces in the Kamerun, a German colony in West Africa, have resulted in further successes, according to an official statement issued by the ministry of the colonies.

KAISER'S FLEET IS HURLED BACK AT RIGA

Petrograd, Aug. 10.—The following official communication was issued:

"A German fleet of nine battleships and twelve cruisers, with a large number of torpedo boat destroyers, persistently attacked the entrance to the Gulf of Riga, but everywhere were repulsed. A cruiser and two torpedo boat destroyers were damaged."

An official explanation of the attack of the German fleet on Riga was given out, as follows: "The Gulf of Riga would allow the Germans to give powerful aid to their army now occupying the western coast of the gulf. With the object of penetrating the gulf, the fleet appeared off Drischen channel, which is the only practical way for large ships to enter. The enemy made three attacks with the object of breaking the mine barrier protected by our fleet. Our Zeppelins and warships co-operated to repel the enemy. The Germans did not succeed in passing our defenses. Three of its ships were damaged by mines near Diben. None of our ships were lost."

SOCIETY and CLUBLAND

By KATE SCHENCK
PHONES—OFFICE 42. HOME 65

Pays Tribute to Club.

The following poem composed by Mrs. I. E. Tebow, living west of the city, was read at the last meeting of the Herron Homemaking Circle when it met at the home of Mrs. Tebow.

"There is a club, all must confess
Whose kindly motto means success.

Whose object is to reach the top
Keep on trying and never stop.

It is an honor great to be,
A member of the H. H. C.

Come join and be a member kind,
A better chance you'll never find.

Just live the pledge of the H. H. C.
And in the future years you'll be

Both proud and pleased to cheer-
ily say,

I joined the H. H. C. one day.
Then her's to the famous H.

H. C.
A better club there'll never be.
Come let us try, both large and small.

To make our club the best of all.

Daughter at Gill Home.

Mr. and Mrs. Armonde Gill of Sheridan, Wyo., announce the birth of their daughter on July 27. Mrs. Gill was formerly Miss Birde Shelton of this city.

Douglas Dinner Party.

Mr. and Mrs. J. E. Douglas of Bedison, were dinner hosts Sunday when they entertained Mrs. J. B. Swearingen of Omaha, Neb., Mrs. Rebecca Gray and Edward Gray of this city.

Guests at Sherlock Farm.

Mr. and Mrs. John Behm and daughter, Beatrice, of this city were guests of a dinner given at noon Sunday by Mr. and Mrs. Edward Sherlock living near Wilcox.

Klaas Dinner Party.

Mr. and Mrs. E. J. Klaas of Parnell, gave a dinner Sunday noon at which their guests were Mrs. George Reimer and daughter, Dorothy of Kellogg, Ia., Mr. and Mrs. William Klaas and family, Edward Klaas and family, Miss Agnes Klaas and Henry Klaas.

Mother's Circle to Meet.

The Mother's Circle will hold its regular meeting at 2:30 o'clock Friday afternoon in the basement rooms of the library. Some matters of importance are to come up before the meeting and all members are expected to be present.

For Iowa Friends.

Miss Rachel Watson of Pickering, entertained with a Kensington Saturday afternoon in honor of Misses Margaret and Doris Payton and Miss Harriett Van Meter of Van Meter, Ia., who are visiting at the home of the Misses Clayton. The additional guests were Mrs. Byron Hanna, Mrs. Howard Null, Misses Beulah and Crystal Everhart, Misses Nellie and Mabel Clayton, Misses Mabel and Myrtle Null, Miss Marie Burks, Miss Ida Bosch, Miss Eugenia Hull, Miss Lenore Plummer, Miss Bessie Ashford, Miss Goldie Carmichael, Miss Stella Wilson.

Birthday Surprise Party.

Miss Edna Baker planned a very pleasant surprise Sunday for the pleasure of her sister, Miss Ollie Baker to celebrate her birthday anniversary. Miss Baker had been visiting a friend and on her return found the crowd assembled at the Baker country home. The evening was spent with various games and delicious supper served. The guests were Mr. and Mrs. Ova Baker, Miss Chloe Dick, Miss Edith Lutz, Miss Gladys Carden, Miss Ethel Dick, Miss Nellie Carden, Miss Ruth Pite, Miss Anna Morsey, Miss Edna and Miss Ollie Baker, Henry Lutz, Walter Bright, Walter Smith, Albert Pride, Dennis Morsey and Fay Baker.

Birthday Dinner Party.

A very pleasant day was spent Sunday at the home of Lloyd McGinness, ten miles south of the city, when a party of friends gathered unannounced to celebrate with Mr. McGinness his twenty-ninth anniversary. At noon a delicious dinner was served. The guests were Mr. and Mrs. Peter K. Brown, Mr. and Mrs. Wilson Ellsworth, Mr. and Mrs. Leslie McGinness, Mr. and Mrs. Cal Williams, Mrs. C. B. McAllister, Mrs. Williams, Miss Martha Ellsworth, Miss Mildred Williams, Miss Louise McGinness, Dale McGinness, Henry Ellsworth, Paul Ditta, Donald and Clarence McGinness, Harold Eldon Williams and Leslie Marvin McGinness.

Mrs. Tebow Hostess.

Mrs. I. E. Tebow was hostess Wednesday afternoon to the meeting of the Herron Homemaking Circle, held at

Alderman Yehle Dry Goods Co.

WEST THIRD STREET, MARYVILLE, MO.

New Autumn Fabrics

WE have just receive a shipment of the new FALL Dress Goods. This together with the new McCall Patterns for September affords the Home Sewers the opportunity of having a pretty fall costume at the very beginning of the season.

For early Fall wear, there are no materials more practical than the Serges, Gabardines, Crepes or Ottoman Cloth, but there are various other weaves such as whipcord, Broadcloth, Novelty Suitings, etc., that are in strong demand.

Among the new colors are the African Brown, Tete-de-Negre, Soft Olive Green, Navy and Submarine Blue, Sand, Metallic Shades, Gray, Black, Rich Warm Reds, and numberless mixtures.

McCall Patterns and our new fall materials insure you of beautiful, stylish apparel. Come and let us show you this new goods.

McCall's Magazine for September and Book of Fashions for the fall quarter are here—you should see them.

Get a copy of the new fashion sheets—they are free.

An Attractive Costume Featuring the Deep Armhole and Yoke Skirt

McCall Patterns Nos. 6705-6845, two of the many new designs for September.

Simple, tailored costumes of serge or gabardine and like materials will be favored for street wear well into the fall, with the addition only of one of the smart fur neck pieces; they will be worn under a separate coat all winter through. This combination of designs—blouse and skirt—is suited to serge, gabardine, whipcord, or a silk. The black and white banding on the collar is attractive, and, if fancied, a dark soutache braid may be used on collar and cuffs.

The Tebow country home west of Maryville. While many of the members plied their needles, a program consisting of piano numbers by Miss Esther Tebow, and readings by Mrs. C. T. Porter, Mrs. V. A. Guthrie and Mrs. I. E. Tebow was given. A luncheon of seasonable dainties was served at the conclusion of the afternoon. Those present were Mrs. S. E. Fisher, Mrs. W. R. Taylor, Mrs. V. A. Guthrie, Mrs. Harve Cockayne, Mrs. A. E. Cockayne, Mrs. J. C. F. Taylor, Mrs. R. Neidel, Mrs. Chance Evans, Mrs. Ed Vulgamott, Mrs. Nellie Manley, Mrs. Henry Moore, Mrs. C. T. Porter, Miss Mary Taylor, Miss Esther Neidel, Miss Sarah Taylor, Miss Nellie Fisher, Miss Esther Tebow and the hostess. Mrs. Charles Dempsey, Mrs. E. Everist and Miss Mona Everist were special guests of the afternoon. The next meeting of the club will be on August 15, with Mrs. W. R. Taylor.

Country Club Entertained.

Mrs. Lillie Dean Shelton and Mrs. Ernest F. Shelton entertained the members of the Country Club with an all day house party Thursday at the Shelton country home west of the city. The day was also the third birthday anniversary of Master William Shelton and he entertained the little folk of the club with a picnic dinner to celebrate the day. The guests included Mrs. J. E. O'Neal and daughter, Edna, of Maryville; Miss Martha Cain of Denver, Colo.; Mrs. Delbert Vert, Mrs. Frank Hall, Mrs. W. S. Job, Mrs. J. C. White, Mrs. Robert Noakes, Mrs. O. L. Shell, Mrs. O. J. Willhoite, Mrs. A. K. Willhoite, Mrs. W. A. White, Mrs. T. M. Trullinger, Mrs. Earl Trullinger, Mrs. M. J. Willhoite, Mrs. D. H. White, Mrs. Rolla White, Mrs. Lon Thompson, Mrs. Earl Duncan, Mrs. William Job, Mrs. Harriett Davenport, Mrs. W. H. Davenport, Mrs. Byron Croy, Mrs. Harve Thompson, Miss Clydell White, Miss Edna Davenport, Miss Wilma Hall, Roberta Willhoite, Jean Croy, Vivian Hall, Lucile Duncan, Augusta May Vert, Lois Margaret and Pauline Thompson, Genevieve Williams, Byron Croy, Jr., Raymond Job, Herman Kenneth and Shelton Thompson.

"Haines Bunch" Picnic.

The "Haines Bunch" will hold a picnic and out-door merry making this evening in the woods at Elm Grove. Miss Katherine Vaughn will be a special guest of the affair.

For Nebraska Guests.

Mrs. Mary Albright and Miss Dorothy Albright of Logan, Neb., who are visiting in the city were guests of a dinner given last night by Mayor U. S. Wright and Mrs. Wright.

To Be Wedded Tomorrow.

The marriage of Miss Esther Klaas, the daughter of Mrs. Louisa Klaas, and Mr. Wyatt Miller of Parnell, will take place tomorrow morning at St. Joseph Catholic church of Parnell. A reception and wedding dinner at the home of the bride's mother will follow the church ceremony.

Townsend to Return.

Mr. and Mrs. Ferdinand Michau Townsend and small son, Edward Bohm, who have been visiting in Denver, Colo.,

with Mrs. Townsend's parents, Mr. and Mrs. Henry Bohm, will arrive in Maryville Thursday noon. They will be accompanied by Mrs. Anna M. Hagins, who has been with them in Denver. Mr. Townsend joined them last week for a short stay. The Denver Post of Sunday contains a large picture of Mrs. Townsend and her son, which shows this charming young mother and beautiful baby boy in a most attractive pose. Mrs. Townsend is a former Denver girl and her visits in her home city are crowded with social gaieties of which she is the motif. Her small son has been accorded a large share of admiration and attention during the home visit this summer.

TEUTONS CLOSING IN ON RUSSIANS

Small Strip of Territory Across
Which Slavs May Escape.

PRAGA FALLS TO GERMANS.

British and French Troops Reported
to Have Captured Trench at Hooge.
Attitude of Poles Toward New Ger-
man Regime a Puzzle.

WAR SUMMARY

The Teutonic allies continue suc-
cessfully their operations against Rus-
sia in northwest Russia and in Po-
land; an engagement to drive the
remaining Russians from the Gal-
icia has begun; the British have
recaptured from the Germans in
Belgium trenches taken from them
recently through the use of flame
projectors and have captured 700
yards of additional terrain there;
French airmen have bombarded
Saarbrücken, in Rhenish Prussia,
to the northeast of Metz; the Ital-
ians and Austrians are still in heavy
combat.

Thus may be chronicled in brief the
latest phases of the war as they
have been made public through the
various channels.

London, Aug. 10.—While the Aus-
tro-German armies made fresh pro-
gress in their campaign against the
Russians, the conflict on the western
front took on new impetus. Sir John
French, commander of the British ex-
peditionary forces, reporting a fierce
artillery engagement, in which Brit-
ish and French forces captured trench-
es at Hooge along a front of 1,200
yards.

The occupation of Praga, reported
by Berlin, brings to a dramatic climax
the first phase of the drive at the Pol-
ish capital and the region of eastern
Poland, of which Warsaw is the dom-
inating center.

Praga is essentially a part of the
capital, with great railway stations on
the roads running to Petrograd and
Moscow. Few details have been re-
ceived of Grand Duke Nicholas' final
stand at Praga, but the indications are
that the withdrawal of the Russians
became imperative to escape the Ger-
man lines gradually drawing together
in their rear. The strip of territory
across which the Russians may with-
draw to safe positions now is hardly
more than thirty miles across.

Besides this development movement
east of Warsaw, Berlin reports a
steady hammering at the great Rus-
sian fortresses of Kovno and Lomza,
the chief significance of which is their
proximity to the lines of railway com-
munication to Petrograd. Novogor-
odsk is the only place west of War-
saw at which a Russian garrison re-
mains and its fall seems imminent.

The attitude of the Poles toward
the new German regime is arousing
deep interest, as the occupation of
Warsaw unites for the first time three
branches of the Poles heretofore di-
vided among Russia, Germany and
Austria.

Under the Russian regime Poland
has been a hotbed of disorder, and it
remains to be seen whether control
of this occupied territory will be as
difficult a problem for Germany as it
has been for Russia.

The official report from Berlin char-
acterized the operations around Hooge
as a battle, but Sir John French's
report placed them to have been
another trench fight, preceded by a
heavy artillery exchange and result-
ing in the capture by the British
of nearly a mile of trenches previ-
ously taken by the Germans. This has
served to divert public attention tem-
porarily from the magnitude of the
German sweep in the eastern field,
but operations in the west still lack
general significance.

SHELLS HIT EVERY 5 MINUTES

Only One German Giant Howitzer
Bombarding French City.

Dunkirk, Aug. 10.—The bombard-
ment of Dunkirk by the giant German
gun operating from Flanders permits
the carrying on of the business of the
city only four and a half minutes out
of every five.

There is only one gun being used in
the bombardment, and the shells come
regularly every five minutes. The peo-
ple of the town take advantage of the
interval between an explosion and the
coming of another shell to transact
business, allowing themselves about
half a minute to make for their cellars.

Abolishes Veto on Military Service.
Ottawa, Ont., Aug. 10.—Wife and
mother have had their day in Canada,
so far as forbidding their men folk to
go to war is concerned, and that day
is past, according to official announce-
ment made by the military depart-
ment. It will no longer be possible, as
it used to be, for a wife to keep her
husband or her sons under eighteen
from enlisting by withholding her con-
sent.

Military Honors For General Tracy.
New York, Aug. 10.—General Benja-
min F. Tracy, former secretary of the
navy, who died here Friday, was
buried with military honors.

Britons Retake Hooge Trenches.
London, Aug. 10.—British troops
have recaptured 1,200 yards of trench-
es from the Germans at Hooge, near
Tern.

SHRINE FOUNDER DEAD.

Rochester, N. Y., Aug. 10.—George
F. Loder, known throughout the coun-
try as the father of the Mystic Shrine,
died after a long illness, aged seventy-
three years. He was imperial poten-
tate emeritus of the Shrine.

KEEPING QUALITY OF CORN MEAL.

Stone-Ground Meal Spoils Sooner—
Better Flavor Than Roller
Milled.

Investigations on the keeping qual-
ities of corn meal, recently completed
by the experts of the Department of
Agriculture, show that stone-ground
meal, which on account of its rich
oily flavor is so desired in the palat-
able muffin, hoe-cake and pone, spoils
much more quickly than meal made
in the modern mill by the roller pro-
cess.

For this reason the stone-ground
meal should be eaten as soon as pos-
sible after milling. In this respect it
is like milk and cream which are usu-
ally consumed within a few hours
after being produced, and which under
the most favorable conditions can be
kept in their natural state for only a
short time.

The roller mill meal is, in its keep-
ing qualities, more like butter which
can with proper care be kept in good
condition, not indefinitely, but for a
reasonable length of time.

The palatable, characteristic taste of
the stone-ground meal is largely due
to the oil contained in the germ of the
corn. As the whole kernel of corn is
ground in the stone or French burr
mill this oil is pressed out in the pro-
cess and imparts its flavor to the meal.

In the roller mill process the germ
is taken from the corn before rolling
by a machine called a degerminator,
and but little of the oil gets into the
meal. The germ, if allowed to remain
in the meal, causes it to spoil quickly.

So the very thing that imparts the
desirable flavor to the meal will also
injure its keeping qualities. In some
cases in stone-ground meal the germ
is removed by bolting after grinding.
This improves the keeping quality over
that of unbolting meal but does not
make it equal in keeping qualities to
the meal made by extracting the germ
before milling.

The term "water-ground" meal ap-
plies to the product ground by stones
without regard to whether the motive
power is water, steam or electricity.
Nearly all stone grinding mills once
were operated by water power while
roller mills were usually operated by
steam, and so the term "water-ground"
was used to mean the same as "stone-
ground."

In later years, however, steam and
electricity have almost entirely dis-
placed water as a motive power in
mills. It is the milling machinery and
not the source of power, that deter-
mines the character of the meal that
may be produced.

The keeping quality of corn meal
is also greatly affected by heat and
moisture. Other things being equal,
the drier the meal the longer it will
keep. It is the custom in larger mills
and in some smaller ones to artificially
dry the meal after milling.

In wet sections of the country, or
in wet weather anywhere, dried meal
will very quickly absorb moisture from
the atmosphere. Any kind of corn
meal will keep much longer in cold
weather than in warm weather. It
should, therefore, be stored in a dry,
cool place.

Four Alleged Horse-thieves Arrested.
Sturgis, S. D., Aug. 10.—Sheriff
Skutt of Mead county arrested and
brought to Sturgis Arthur and Josh
Gaffey, Max Pfeiffer and Chick Man-
son, all of whom are charged with
horse stealing. Sheriff Skutt recently
returned from Miles City, Mont.,
where two other men are under ar-
rest on the same charge, supposed to
be implicated with the gang working
in Black Hill counties.

Kaiser's Court Pianiste Deported.
London, Aug. 10.—Maria Cecilia
Natalie Panethe, court pianiste to Em-
peror William, was arrested in Lon-
don and deported from Tilbury.

steady; lambs, \$7.50@9; wethers
\$6.75@6.50; ewes, \$5@6.50.

One pound of good bread is as nu-
tritive as 2½ pounds of potatoes.

STOCK PRICES AGAIN GO UP

Cattle, Hogs and Sheep Rise 10 to 15
Cents—Corn Outlook Deter-
mines Future.

Kansas City, Aug. 9.—Light receipts
of cattle last week resulted in a gain
of 15 to 25 cents in prices. The sup-
ply today is 13,000 head here, and 22-
000 in Chicago, sufficient grounds for
weak to 10 lower prices on bulk of the
cattle, a few steers 10 to 15 lower.
Missouri corn and blue grass steers
brought \$9.90, and one lot was held
at \$10, unsold at noon but with some
show of getting the price.

Middle grades of native grass steers
sold at \$7.75 to \$8.50, bulk of the good
Kansas pasture steers, weighing 1,200
to 1,375 pounds, at \$8.40 to \$8.75. Two
cars of Idaho steers arrived, one car
of thin feeders at \$7.75, the other
killing steers around \$8.15.

In the quarantine division receipts
were confined to Oklahoma grass cat-
tle, including wintered steers at \$7.25
to \$7.60, straight grassers \$6 to \$7.25.
Stock grades of cattle sold firm today,
largely at \$6.90 to \$7.75, except some
of the low priced steers, at \$6.50 to
\$7.15, which were 10 lower than a week
ago. Fleshy feeders are not getting
the usual competition they enjoy at
this season.

Dealers expect the trade to open up
within a week or two, as soon as corn
prospects are better defined, although
a good many cattle feeders will stay
out of the game this year because of
their losing experience last year, due
to foot-and-mouth disease. A little
action on choice fed steers would stim-
ulate the demand for heavy feeders im-
mensely.

Hogs sold 10 higher today, following
better prices each day since the mid-
dle of last week. There is not such a
wide spread as formerly, though grass
hogs are still cut severely. Receipts
show an increase over last Monday,
though still light, at 6,500 head, top

price \$7.42½, bulk of sales \$6.85 to
\$7.40.

Hogs weighing 200 pounds brought
\$7.40 and weights around 260 pounds
sold up to \$7.10, 300 pound hogs stop-
ping at \$7.00. Packers paid \$7.40 for
light hogs.

Sheep and lambs sold 10 higher to-
day, six doubles for Idaho lambs weigh-
ing 63 pounds sold at \$9, with a 15
per cent cut to feeders at \$8.00, the
feeder end weighing 47 pounds. Ari-
zonas arrived to the number of 3,000
head, and sold at \$8.60 to \$8.80, 10 to
15 higher. Fair to good native springs
brought \$8.75, fat ewes \$6.60 to \$6.75
and breeding ewes sell at \$6.50 to \$7.50.

* STOCK MARKET *

KRYL BAND MADE CHAUTAUQUA HIT

CONCERTS YESTERDAY RECEIVED APPLAUSE FROM CROWD.

SPEAK ON CHINA AND SCHOOL NEEDS TODAY

Uel W. Lamkin Explains How Rural Education May Be Bettered—Ng Poon Chew Talks.

Tuesday, August 10.
7:30 p. m.—Acts from great plays by The Cambridge Players, followed by an hour of rapid fire art by Ross Crane in cartoons, clay modeling and talk.

Wednesday, August 11.
9:00 a. m.—Junior Chautauqua. Games and contests.

10:30 a. m.—Special address, "The Economic Value of Missions," by Dr. F. Q. Brown.

2:30 p. m.—A clever entertainment by S. Platt Jones.

3:00 p. m.—Speech, "Live or Die," by Byron C. Platt.

7:30 p. m.—S. Platt Jones in lecture, recital and song stunts.

8:15 p. m.—J. H. Balmer and his Kaffir Boys.

Thursday, August 12.
9:00 a. m.—Junior Chautauqua. Final Jaunt and Roundup.

2:30 p. m.—Popular concert by Sam Schildkret's Orchestra.

3:00 p. m.—Address, "The Impending Crisis," by Senator James K. Vardaman of Mississippi.

7:30 p. m.—Costumed exhibition of children of countries visited by The Junior Chautauqua Bunch.

8:00 p. m.—Sam Schildkret's Hungarian Orchestra.

8:30 p. m.—Address by William Jennings Bryan.

"Oh, for more of that kind of music!" was the almost universal comment of the hundreds of those who heard the Bohemian Karyl band concerts at the chautauqua yesterday afternoon and last night. The cornet solos by Mr. Karyl especially those of the afternoon, were exceptionally fine.

The rendition of "Custer's Last Fight," and "The Village Blacksmith,"

NG POON CHEW.

with the use of electric anvils also were unusually good.

But one incident marred the evening entertainment, that being a slight delay during the concert, by the disconnection of the electric light wires on the platform, which threw the entire amphitheatre into darkness.

Today's entertainment is starting off good. After the usual hour devoted to the children by the Junior chautauqua supervisor, Miss Farnes Knefler, an address on "The People and the

Orator and Statesman Here Thursday

WILLIAM JENNINGS BRYAN

The Maryville chautauqua which closes Thursday night, will have one of the best and biggest numbers of the entire week's program, as the final number Thursday night, when William Jennings Bryan, orator, statesman, and politician appears for an address. As added attractions that night there also will be a costumed exhibition of children of the various countries visited by the Junior chautauqua bunch, and

Public Schools," was given by Uel W. Lamkin.

Talks on Public Schools.

Mr. Lamkin is a specialist in this subject, as was demonstrated by his lecture here this morning. He is one of the most progressive school men of the middle west. He has served as inspector of high schools and is the only "country school" man, ever to be elected president of the teachers' association of his state.

He is also a member of the National Educational Association and of the National Society for the Promotion of Industrial Education. As a member of each, he has been unusually active.

The afternoon program today opened with an unique entertainment by the Cambridge Players. The company is made up of Miss Laura Bitter, soprano; Mr. William Hamesworth, pianist; Miss Martha Miller, reader, and Mr. Jesse Coffey, quick-change-and-make-up-before-your-eyes impersonator.

The entertainment by the Cambridge Players was followed at 3 o'clock by an address on "China and Her Problems" by Ng Poon Chew.

Tells of China and Problems.

Ng Poon Chew is a scholar and philosopher, an editor, a statesman, a Presbyterian minister and a man of affairs. Together with Dr. Sun Yat Sen, Ng Poon Chew had a great deal to do with the agitation and organization which resulted in the present Chinese Republic.

This gives weight to all the lecturer has to say. He is an able speaker in English, and he uses the correct English idiom with a delightful foreign accent.

Dr. Ng thinks that the Chinese revolution is the greatest event that has ever occurred in history. In four months a government had been overthrown whose roots were more ancient than any other government or dynasty

FIX MEXICO POLICY

CONFEREES AGREE ON PROGRAM TO END MEXICAN DISTURBANCE.

MAY RESULT IN PEACE

Various Factions in the Southern Republic to be Considered in Arrangement—U. S. Supports.

Washington, Aug. 10.—A very definite policy as to Mexico has been agreed upon by the Pan American conference, Secretary Lansing announced. "The conference adjourned because I wished to consult President Wilson about it," he said. "I have consulted the president and the conference will be resumed." Mr. Lansing would not disclose the conference plans.

The confidence expressed by officials generally here that the conferees who were representing the United States, Brazil, Argentina, Bolivia, Guatemala and Uruguay will be able to shape a course likely to bring peace and restore constitutional government in Mexico is due to the fact that all are agreed that most of the people of the revolution-torn republic are thoroughly sick of war, and with encouragement from friendly powers will promptly join in a movement to clean house.

A large section of the country and many people have not been involved in the fighting which followed the overthrow of Huerta. Moreover, it has been reported to President Wilson that only the fear of reprisals by the military chieftains has kept the people in subjection while the country has been impoverished by the battles of relatively small forces of armed men.

All Factions Considered.

Reaching their conclusion on these reports, the Pan-American conferees are understood to have determined to present the situation to all of the various elements in Mexico addressing directly not only Generals Carranza, Villa and Zapata, but the governors of states, all military leaders with any considerable following, and other influential men, urging them to come together for a caucus at which a substantial provisional government might be framed.

A government so set up would have the support of the United States and other American republics. Officials here believe it would be able to suppress promptly any dissatisfied groups which might attempt to continue civil strife. It is hoped that none of the important chiefs will offer opposition to the plan, but if trouble does develop on that point it is necessary by the American powers, the conferees believe they would have the support and approval of the civilian population of Mexico in any step which might be taken to assure the restoration of peace.

Carranza officials here said the Brazilian minister at Mexico City, the only diplomatic representative of the United States has in Mexico, has been withdrawn by his government because General Carranza was prepared to arrest him from the country, as he did Senor Ortega, the Guatemalan minister.

BOLCKOW-GRAHAM GAME CALLED.

Play Match with Pick Up Team—Country Teams Play Morning Game.

The game set for Sunday afternoon between the Bolckow and Graham baseball teams, was called off on account of the inability of the Bolckow team to reach Graham. A game between a pick-up team and the Graham nine resulted in a score of 6 to 7 for the Graham team. In a game yesterday morning at Graham played between the North and South country teams the score was 5 to 6 for the South team.

COUNTY TEAMS PLAY SUNDAY.

Burlington Junction Boosters Beat Clarinda, Ia. Team.

The game played between Maitland and Skidmore teams Sunday afternoon at Skidmore finished with a score of 14 to 13 for Skidmore. Next Sunday afternoon, the Arkoe and Skidmore teams will play a game at Skidmore.

The Pickering nine defeated the Parnell team in a game at Pickering Sunday afternoon.

The Burlington Junction "Boosters" won over the Clarinda, Ia., nine by a score of 2 to 1 in the game at Bever Park Sunday afternoon.

Guests at Landfather Home.

Mrs. Henry Clayton and children of Washington, D. C., arrived in Maryville Sunday night to visit Mrs. Clayton's sister, Mrs. Louella Landfather and children of West Fourth street.

Guest of Harvey McClary.

H. P. McClary, Jr., of Windsor, Vt., arrived in Maryville Saturday to spend a few days visiting his brother, Harvey McClary.

IS VICTIM OF TYPHOID.

Funeral Services for Miss Mary Hartness of Burlington Junction Tomorrow.

Funeral services for Miss Mary Hartness, 16 years old, the daughter of Mr. and Mrs. Grant Hartness of Burlington Junction, who died last night will be held at 1:30 o'clock tomorrow afternoon at the Christian church of Burlington Junction.

Miss Hartness has been ill for several weeks with typhoid fever. She is survived by her parents and two sisters, Misses Eva and Beulah Hartness.

John Hayes of Skidmore was in the city today looking after some business interests.

TEST NORMAL SOIL

EXPERIMENTS SHOW "SMOOTH" GRAIN SPROUTED LESS.

YIELDS RANGED WELL

Mealy, Michigan Amber, and Jones Red Wave Averaged About 38 Bushels to Acre—Quality Is Poor

The Normal has finished its wheat threshing, and the yield ranges from 38.65 down to 23.7 bushels per acre for that grown on untreated soil and from 34 down to 28 bushels per acre on the fertilized or treated soils, according to a report today of R. A. Kinnaird, now head of the agricultural department.

On account of the unusual weather this summer, however, the quality of the wheat was materially reduced, although the yields were better generally than those last year. The results show that the wheat varieties that had the stronger stiffer straw, stood up through the storms better and therefore less of that grain sprouted, making the quality better.

The records of the yields were taken by Prof. A. R. Evans, in charge of the outlying crop fields of the Missouri State Experiment station at the University of Missouri. The threshing was begun Friday and completed yesterday. The engine was furnished and operated by Bert Hyatt, and the Normal thrasher used.

Quality Ran Low This Year.

The wheat qualities ranged from 50 to 60 pounds to the bushel, while last year, it was slightly above this. This would make all test as No. 3 or No. 4 on the market.

Two kinds of fields were used by the Normal in the experiments. One is known as the soils in which there were ten different plots field or in which different fertilizer treatments are used. The other is untreated soil. The aim in the wheat crops of the treated fields, is merely to test out the fertilizers and not the wheats, while on the crops fields, the aim is merely to determine which variety of wheat yields best.

This year, the records of yields by the nineteen different varieties, show that the "smooth" or "beardless" wheat stood up better and sprouted less and therefore a better yield was made, although in a normal year, it might be reversed.

The yields of the nineteen different varieties of wheat grown on the soils fields, ranged as follows, the first yielding 38.65 bushels and the last 23.7 bushels to the acre: Mealy, Michigan Amber, Jones Red Wave, Harvest Queen, Rudy, Dietz, Poole, Mediterranean, Harvest King, Poole, D-3, Turkey, Michigan Wonder, Fult, Fulcaster No. 15, Early Ripe, Fulcaster, Lebanon, Early Ripe No. 29, Beachwood Hybrid.

Smooth Wheat Yielded Best.

The first four mentioned varieties are beardless kinds. The Dietz variety made the best yield last year, Prof. Kinnaird reports.

To accurately determine the yields, each variety is sowed a drill width in three separate parts of the field, harvested separately, shocked separately and threshed separately. This prevents any from being mixed as wheat will not cross pollinize no matter how close together two or more may be.

The wheat will be fanned and cleaned and all needed will be used to sow next fall on the Normal Experimental farms, Prof. Kinnaird reports. All that remains will be sold on the market or shipped to other experimental farms for seed.

This Soil Yielded Best.

In the soils tests, the results this year showed that a certain plot which had been limed three years ago and received 150 pounds of bone meal and 50 pounds of phosphate to the acre made the highest yield. Only the Poole B-3 variety of wheat was sown on the ten soils plots.

PLAN NEW NORMA COAL SHED

Move Wabash Switch Track to North, Making Room for New Building.

A force of Normal workmen began grading this morning for the moving of the Wabash side track about twelve feet farther north of the Normal power house, so as to make room for a new coal shed to be erected there this summer.

The Normal workmen are to do the grading for the improvement while the Wabash will transfer the track. By building a new coal house, it is believed sufficient coal can be stored in the fall to last through the winter, or at least for a much longer period than heretofore.

BOOSTERS TO PLAY BARNARD

Maryville Baseball Nine Strengthens Line Up for Contest at Normal Grounds Thursday.

The Maryville Boosters are strengthening the baseball lineup considerably for the game scheduled for Thursday afternoon at the Normal grounds with the Barnard M. W. A. team. Besides the old players there will probably be Rapps, now with the Federals, on the third sack, perhaps, Richardson, Federal catcher, and Reudy, who played center field for the St. Joseph Tip Tops here Sunday.

The line up will probably be as follows, according to Walter Wray, manager: Wakeman, p; Wogan or Richardson, c; Wray, 1b; Still, 2b; Rapps, 3b; Palfreyman, ss; Vandersloot, lf; Scott, or Reudy, cf; Moore, rf.

HE HAS MODEL DAIRY FARM

Senator Anderson Craig Invites Patrons to See Butter Made—Has Pneumatic Milkers.

An invitation for anyone to witness the making of butter on his model dairy farm, any morning or afternoon, was extended publicly today by Senator Anderson Craig, who last week, took active charge of his farm northeast of Maryville, and moved thereon. But to see the morning process of getting milk—later butter—from the forty odd cows on the place, one must go in the early morning hours, 4:30 to be exact.

Or if you are not of the nocturnal species of human being, you may lie yourself to the Craig farm at the same hour in the afternoon, any day, Sunday and holidays included. For all days are alike on a dairy farm.

To get some idea of the manner in which dairymaking is carried on at the Craig farm, it might be stated that three pneumatic milking machines "strip" the forty and more cows, mostly Holsteins, in about an hour, a steam separator separates the milk from the cream in about twenty minutes and an electrically operated churn converts the cream into butter in about eleven minutes. It turns out about sixty pounds of butter in each operation.

So that from the start to the finish—milking, separating and churning—but about one and one-half hour's time is consumed. Senator Craig says the dairy herd gives an average of 80 to 100 gallons of milk daily, which converted into butter makes about 250 pounds per week.

But that is not the most noticeable thing, one sees on a visit to the Craig dairy farm. The most conspicuous and interesting "find," is the extreme cleanliness of the barns and milk receptacles, which renders the whole absolutely sanitary and insures uncontaminated products.

CHAUTAUQUA MANAGERS HERE.

Redpath-Yawter Officials Arrange for Next Year's Attraction.

Keith Yawter and J. Robert Cornell of Cedar Rapids, Ia., officers of the Redpath-Yawter Chautauqua System arrived in Maryville to attend the chautauqua session here and arrange for next year's attraction.

A number of business men of the city were interviewed today relative to securing next year's chautauqua, when almost an entirely new program is promised. It is believed that the Redpath-Yawter System will again be favored.

Cox Family Here.

Mr. and Mrs. Ben Cox and family, living near Ravenwood, were visiting in Maryville today. Mr. Cox recently purchased a new touring car.

Oral Awalt of St. Joseph is visiting relatives in Maryville and Pickering.

CHANGE 5 SCHOOL TEXT BOOKS HERE

NEW GRAMMAR AND WRITING BOOKS FOR GRADES IN COUNTY

ADOPT 3 NEW WORKS IN HIGH SCHOOLS TOO

First Latin, Rhetoric and Geometry to Be Different—Add Commercial Geography—Use Next Term.

Several changes in the text books used in the grade and high schools of Nodaway county were made late yesterday afternoon and this morning by the Nodaway County Textbook Commission, composed of Bert Cooper, county superintendent, Dean G. H. Colbert of the Normal and George W. Somerville, principal of the Clearmont schools.

The contracts for the changes, being made today, provide that the next text books shall remain for five years. They are to be ordered at once so that all new books may be on hand over the county two weeks before schools open, the first week in September. The books they replace may be exchanged for the new ones at a discount for one year, beginning today.

Those replaced have been in use in the public schools of Nodaway county for ten years and had become quite antiquated. While it is not compulsory for the approved high schools of the county to adopt the books contracted for by the textbook commission, it is believed that all will do so.

Add Supplemental Books Too.

The only unapproved high schools in the county are those located at Ravenwood, Guilford and Quitman. There is some talk of placing the Pickering high school again on the unapproved list.

Fifteen book publishing companies were represented at the meeting of the textbook commission by personal representatives, while several more put in bids by mail. The changes ordered by the commission are the first in three years.

Besides making several changes in text books, a number of supplemental books, for reference, also have been contracted for. They will probably be placed in the libraries of most of the schools or kept by the teachers, but need not necessarily be purchased by the pupils.

Here Are the Grade Changes.

In the grades, the "Mother Tongue" book will be replaced by the grammar and language book, entitled "Live Language Lessons," published by the University Publishing company and compiled by Driggs. There are three books provided, though only the second and third will probably be used in the majority of the schools.

Book one will sell for 35 cents retail or 27 cents in exchange. Books two and three will sell each at 42 cents retail or 39 cents in exchange. The "Mother Tongue" books sold at 40 cents and 52 cents, so that each student will save about a dime hereafter in grammar text books.

Reed & Kellogg's Higher Lessons in English, will be provided as a supplement in grammar, though need not be purchased by pupils. It will sell at 60 cents retail.

William's Reading, Conversation and Composition, also will be added as a supplement in language reading.

The Economy muscular movement style of penmanship or writing, will supplant the present New Era style. It is a cross between Spencerian and vertical systems of writing. The books will sell at 13 cents each, including 50 sheets of paper. Additional paper costs 5 cents per 50 sheets. There will be about three different sets adopted.

High School Text Changes.

Several changes also will be made in the high schools as follows: Collar & Daniels, first year Latin will be supplanted by the work of D'Ooge. The retail price will be 92 cents and the exchange price 60 cents.

CANCER IS NOT HEREDITARY.

Medical Journal Says Worry in Family With Cancer Patient Is Needless.

Perhaps nothing causes more needless worry than the fact that one of more persons in a given family have died from cancer. This is commonly taken as proof that the disease is hereditary. This does not at all follow.

There is probably no greater chance of inheriting cancer than there is of being killed by lightning or of breaking one's neck falling down stairs. Perhaps there are people who worry even about those contingencies but the statisticians have shown that such fatal accidents are extremely rare. People who are concerned because their relatives have succumbed to cancer fail to consider how widespread the disease is.

A malady that causes one death out of every eight among women and one out of every fourteen among men over forty is fairly common. On this basis it does not take much arithmetic to figure out how likely it is that cancer will occur many times in some families. The eminent statisticians, King and Newsholme, have pointed out that it does not prove heredity to show that in one family, five deaths occurred from cancer.

By the frequency of the disease, and the laws of chance, such cases would be expected even if no one had ever suggested the idea of heredity. It can be mathematically demonstrated that if a sufficient number of people start to toss coins it is a certainty that at least one of them will toss 1,000 consecutive "heads."

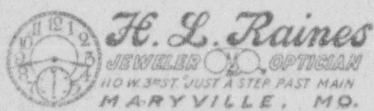

So with cancer; given a sufficient number of families it is certain that many members of some few families will die of this disease. Therefore, it is not necessary to assume that the disease is inherited to account for its frequency. Sometimes this fallacy crops out when certain notable cases, such as that of the Bonaparte family, are cited.

It should be remembered that the rarity of such cases are so noticeable that they are remembered. If the cancer tendency should disappear in such a family no further attention would be paid to the spread danger.

If such family histories resulted from actually inheriting the disease, rather than from chance, they would be far more commonly reported. It is possible that certain forms of malignant disease may, under rare conditions, be transmitted to the child. Cancer is a very large word, covering a number of widely different diseases. It may be, also, that under highly artificial conditions of inbreeding mice a certain susceptibility to tumors may be inherited. Nevertheless, as applied

Guess Work Is DANGEROUS In Fitting Glasses

AUTHOR OF "HEART OF THE BLUE RIDGE" HERE

WALDRON BAILY, Author.

Waldron Baily, a commercial salesman for the Grosset & Dunlap Book Publishing company, and likewise the author of "Heart of the Blue Ridge," one of the latest "best seller" works of fiction, just out, was in Maryville Sunday and yesterday to visit with friends and attend the chautauqua.

Mr. Baily is a personal friend of

to human beings and in the practical view, the foremost authorities believe that heredity in cancer may be regarded as a negligible factor.—Journal American Medical Association.

Mica Deposits in United States.

Mica mining in the United States began with the opening of the Ruggles mine, in Grafton county, N. H., about 1803. Later other mines were opened in New Hampshire, which for many years furnished practically all the mica in this country. A report by Douglas B. Sterrett, recently issued by the United States Geological Survey, describes the Ruggles mine as well as other mica deposits in the United States.

Mica is a valuable mineral in the industrial world, where it meets a demand not supplied by any other material, so that the sources of supply are of both present and future importance.

Many good mica deposits are known in the United States and the production is increasing. The imports of mica are generally greater than the domestic production, but the mica mines of this country could be made to supply all but that small part of the domestic demand which calls for the softer Canadian "amber" mica.

Good mica mines have been worked in North Carolina, New Hampshire, South Dakota, Idaho, New Mexico, Virginia, South Carolina, and Alabama, and promising deposits are known in several other states.

A thousand dollar prize is offered through the American Social Hygiene association of New York City for the best original pamphlet for boys and girls between 12 to 16 years of age on the problem of social hygiene.

Returns to Barnard.

Mrs. Robert Hillsbeck has returned home after a two-week's visit with her parents, Mr. and Mrs. Wolfers, living east of Barnard.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Catarrh is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address F. J. CHENEY & CO., Toledo, O. Sold by all Druggists. Take Hall's Family Pills for constipation.

PROVIDE A SCHOOL MUSEUM.

St. Louis Educational Board Uses Modern Method to Advance Ideas.

A traveling museum that goes to the public schools with illustrative material at the time it is needed is successfully used by the St. Louis, Mo., schools, according to a bulletin issued by the U. S. Bureau of Education.

It was the Exposition of 1904 that first gave St. Louis the opportunity to extend to its schools the educational advantages of a great museum. After the fair had closed a number of the exhibitors donated parts of their displays to the public schools, and in this way the nucleus of an educational museum was obtained.

After the material for the museum had been grouped, the question of using it most profitably had to be settled. As it was found impracticable to supply every one of the hundred public schools of the city with a separate museum, it was decided that there should be one museum for all the schools and that by means of an automobile truck the museum material should be sent to the various schools.

The museum is arranged in close connection with the course of study followed in the schools. Among the groups of exhibits are: "food products, material for clothing, mounted animals, the life and occupations of different people of the world, charts and colored pictures illustrating history, minerals and ores, and charts illustrating geography, astronomy, and physiology." The museum reports show that in point of popularity the pictorial charts and the display of mounted birds come first. Material for clothing and the exhibit on food products come next in order of demand.

The museum of St. Louis has 7,000 individual and duplicate collections; 4,000 lantern slides; 8,000 stereoscopic views and 2,000 colored charts and photographs. The school authorities make a point of the fact that there is nothing in the traveling museum which can not be used in direct connection with the work of the schools. It contains no curiosities nor abnormalities, no freaks of nature.

The main purpose of the museum is to bring facts home to the pupils as realistically as possible. Thus by means of the cotton exhibit the children are taken to the cotton field, where they study the plant, the method of preparing the soil, the harvesting to the cotton gin, where the seed is separated from the lint; to the market to see the baling and shipping; to the cotton factories, where the lint is spun and woven into fabrics; and to the refineries to learn how cottonseed oil, oil cake, cottonseed, and soap are made. The supply of the demands for cotton goods is shown by a comparison of the crude implements used by the inhabitants of the Philippine Islands with the magnificent machinery in the large eastern factories as pictured by the stereoscope and lantern slides.

Coal Mined in Georgia.

The coal mined in Georgia in 1914 amounted to 166,498 short tons, valued at \$239,462, as compared with 255,626 tons, valued at \$361,319 in 1913. The coal production of Georgia has fluctuated greatly from year to year since 1876, when it first exceeded 100,000 tons.

Miss Marjorie Trout of Tarkio is visiting in the city with her cousin, Miss Mary Margaret Richey.

Mr. and Mrs. Otis Gray of Parnell spent yesterday in Maryville visiting Mr. Gray's mother, Mrs. Rebecca Gray.

APPEALS ON ACCOUNT SUIT.

Williams of Arkoe, Dissatisfied with Justice Verdict for S. C. Clark, Maryville.

An appeal to the circuit court was filed today by G. M. Williams, S. B. Williams and Daniel Williams of Arkoe who were sued for \$85.35 by S. C. Clark, garage and automobile repair man here, in justice W. L. Johnson's court recently. A jury in justice court allowed Clark \$60.25.

The suit was to recover a bill for that amount alleged to be due for the repair of automobiles and furnishing automobile accessories and supplies.

MRS. NOAH JENNINGS DEAD.

Came Here From Kansas City—Died at the Home of Brother.

Mrs. Noah Jennings of Kansas City, died at six o'clock this morning at the home of her brother, Gabe Allen on East Fourth street. Mrs. Jennings came to Maryville about six weeks ago for treatment. The funeral services will be held at 2:30 o'clock tomorrow afternoon at the Myrtle Tree church, east of Maryville, conducted by the Rev. S. D. Harkness, pastor of the First Presbyterian church. The body will be buried in the Myrtle Tree cemetery.

Mrs. Jennings is survived by her husband, who has been with her since her illness, and by one daughter and two sons. The Jennings family are former residents of Maryville.

GET DATA ON DEEP WELLS.

Engineering Experts of University Obtain Information of Artesian Water in State.

The department of geology and the engineering experiment station of the University of Missouri are now obtaining information on all new deep wells that are being drilled in the state for artesian water.

"It is hoped in time to collect complete information for permanent record as to the occurrence of artesian waters in the state of Missouri," says E. J. McCausland, dean of the School of Engineering. "This is a matter of prime importance to the small towns of the state whose population is now served with water from surface streams subject to possible contamination."

Wherever a deep well is being sunk in Missouri, a representative of the geology department is sent to get samples of the strata. These samples are filed in cases at Columbia.

In time it is hoped that sufficient information will be obtained to enable Missourians to find out where water can be obtained and at what depth.

Mineral-Water Trade in 1914.

The annual report on the production of mineral water in the United States, which has just been compiled by R. B. Dole, of the United States Geological Survey, from reports received from spring operators, shows that 54,258,466 gallons of mineral water, valued at \$4,892,328, was bottled and sold in 1914. The water was marketed for both medicinal and table use and ranged in composition from the purest of table beverages to the strongest mineralized waters in the country. In addition to this quantity, 6,261,743 gallons of mineral water was consumed in the manufacture of "soft drinks."

Return to Kansas City.

John McShane and Charles Geary of Kansas City, who have been visiting at the home of Mr. McShane's grandmother, Mrs. John Vaughn, and his aunt, Miss Katherine Vaughn, left for their home this morning.

To Visit at Elmo.

Miss Bessie Vail of Elmo returned to her home today after a week-end visit at Barnard with Miss Bertha Richey. She was accompanied by Miss Richey, who will spend the remainder of the week at Elmo.

Miss Jackson Called Home.

Miss Dora Jackson of Hardy, Ark., who has been a house guest of Mr. and Mrs. Roy Wolfers of Pickering for the past week, was summoned to Hardy, today by the serious illness of her mother. She was accompanied on the return trip by Fred Wolfers of Pickering.

Frank Wallis of Pickering left yesterday for a few weeks visit in Colorado.

JOPLIN WOMAN IS RESTORED BY REMEDY

Mrs. Hillman Took Treatment Two Years Ago—Has Been Well Ever Since.

Mrs. Ida Hillman of Joplin suffered from stomach ailments for twelve years. She followed the advice of several expert physicians and took a great deal of medicine. Two years ago she discovered Mayr's Wonderful Remedy—and she has been well since. Mrs. Hillman took but a few doses. She writes:

"I suffered with stomach trouble almost twelve years. I tried many doctors, but received no help until, while in Cleveland, Ohio, I read your notice in a paper and concluded to try Mayr's Wonderful Remedy. Since then I have felt like a new woman."

"I took only four bottles, but that was all that was needed to make me well. It has been almost two years and I have had no return of my trouble."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

COMETS BEAT PIRATES 10-7.

"Kid" Baseball Teams Stage Contest—Cook and McManus Pitch.

The Comets defeated the Pirates, both "kid" teams, at Federal park yesterday afternoon by the score of 10 to 7. The battery for the Comets was Cook and Egley. The battery for the Pirates McManus and Yeaman.

12-FOOT WEEDS ON A STREET.

Councilman Wins Bet in Presentation of Mammoth Stalks From East Ward.

W. A. Tindall, councilman, bet H. L. Raines, another councilman and member of the street committee, that he could find some unusually tall weeds growing along one of the principal thoroughfares of the city. So this morning Mr. Tindall presented to Mr. Raines a number of horse weed stalks which measured approximately twelve feet high.

They were gathered on East Third street off the Murray lots, Mr. Tindall said, and only a few feet from the sidewalk. Mr. Tindall placed them on exhibition at Raines' jewelry store.

Mr. and Mrs. Shockley Home.

Mr. and Mrs. J. L. Shockley living south of the city, returned yesterday from a visit of several weeks with relatives at Seattle, Wash. They also visited other places of interest in the west.

OBITUARY.

J. W. Baker died July 5, at the family home 315 West Second street and was buried in Miriam cemetery July 7, 1915. The funeral services were held from the residence conducted by the Rev. John H. Hubbard, pastor of the Buchanan Street Methodist church. The relatives attending the funeral were the widow, Mrs. J. W. Baker, two sons and four daughters and their families. They were William Baker and family

of Omaha, Nebr., J. A. Baker and wife of Oskaloosa, Ia., Mrs. W. A. Wright, of Shawnee, Okla., Mrs. W. H. Graves of Glencoe, Okla., Mrs. C. E. Pray and family and Mrs. T. C. Thackery and family of Grant City, Mo. One daughter, Mrs. G. M. Price of Winfield, a.k.a., was unable to be present on account of illness. Beside the family present one brother and sister attended. They were M. V. Baker and Mrs. Rachel Adams of Barnard. Mr. Baker was also survived by two brothers, C. E. Baker of Maitland, Nathan Baker of Barnard and Mrs. Jacob Elsminger of Savannah, all of whom were unable to attend the funeral.

Mr. Baker was born in Platte county, Mo., in 1843. His grandfather, Nathan Baker, who was one of the earliest settlers of North Carolina, died in Missouri in 1819. Mr. Baker was married at Garham, Mo., in 1866 to Sally A. Matherly, who survives him.

Mr. Baker purchased a farm 2 miles west of Barnard and made that his home for 36 years. In 1903 he came to Maryville and purchased a ten acre place at the south edge of the city and lived here for a few years when he purchased his town home. For six months previous to his death, he had been an invalid.

Local Men Got "In Bad."

Harry Hastings and Anthony Welch, who said they came to St. Joseph from Maryville, Mo., were given three hours in which to get out of St. Joseph by Police Judge Alice this morning. They were arrested by Cycle Officers Reardon and Deaton for begging in Wyatt Park.—St. Joseph News-Press.

A Baby Show at the BOOSTER STORE

The prettiest baby will receive a gold ring, and its mother will receive a 42-piece dinner set.

Which is the prettiest baby in this community? We are unable to tell, and wouldn't dare tell even if we could. Every baby is pretty, so we'll have to take a vote on it. During the Baby Show any person casting Booster Coupons for a Booster may write on the back of the coupons the name of the baby for which he or she is voting. The baby for which he or she is voting will be given the number of votes indicated on the face of the coupons.

1. Every baby is pretty, therefore every baby may enter this contest.
2. The baby Show is limited to babies LESS than four years of age.
3. Each baby entered must be brought to the store some time during this show.
4. Standing of babies will be posted each MONDAY.

Come to our store for full explanations. Boosters help some mother, and she'll help you. The BABY CONTEST begins Monday, August 16th and closes Saturday, September 4th, at 11 p. m., when the ballot box will be closed and the votes counted.

The Patron Club, headed by Booster LILA TABLER, won first place last week. Booster REBECCA SHELL'S Club also won eleven silverware certificates.

Each Patron Club is pulling hard to win, for never before was there such an opportunity to get this beautiful Simeon L. & Geo. H. Rogers table silverware free.

Our Patron Club Specials for Wednesday are UNDERWEAR and HOSIERY.

**BELGIANS FORCED TO
WORK IN ARSENALS**

Germany Charged With Violation
of the Hague Rules.

Paris, Aug. 10.—A report of the Belgian committee investigating violations of international law, issued here by the Belgian legation, is devoted to instances of alleged violations by Germans of the Hague convention, governing the laws and customs of land warfare.

Examples cited cover alleged German attempts:

First, by offering wages as high as 20 marks (about \$5) a day and finally by force, to compel Belgian civilians to work in arsenals, on railways used for military purposes and in wire factories.

The report gives details of alleged violations at Luttre, Malines and Swevedum quotes the text of an order, asserted to have been signed by Lieutenant General Count von Westari, the German commander at Ghent, dated in that city, June 10, in part, as follows:

"The attitude of certain factories which, under the pretext of patriotism, relying on The Hague convention, refuse to work for the German army, proves that among the population there is an inclination to raise difficulties for the administration of the German army. In this connection I inform you that I will suppress such maneuvers by all means in my power."

OKUMA DECIDES TO REMAIN

Japanese Premier Agrees to Stay in Office and Arrange Cabinet.

Tokyo, Aug. 10.—Premier Count Okuma virtually has decided, at the special request of the emperor, to remain in office and has arranged a new cabinet.

The assumption of Count Okuma of the foreign ministry, following the declaration of Takaaki Kato to retain that portfolio is to be temporary, pending the selection of a permanent minister.

It became known that the emperor had requested Premier Okuma to remain in office and that the premier had agreed provisionally to do so. His acceptance was contingent upon the construction of a cabinet acceptable to him, and announcement was made of his arrangement of the new cabinet.

French Troops Gaining in Kamerun.
Paris, Aug. 10.—Eucirello operations by French troops against German forces in the Kamerun, a German colony in West Africa, have resulted in further successes, according to an official statement issued by the ministry of the colonies.

**KAISER'S FLEET IS
HURLED BACK AT RIGA**

Petrograd, Aug. 10.—The following official communication was issued:

"A German fleet of nine battleships and twelve cruisers, with a large number of torpedo boat destroyers, persistently attacked the entrance to the Gulf of Riga, but everywhere were repulsed. A cruiser and two torpedo boat destroyers were damaged."

An official explanation of the attack of the German fleet on Riga was given out, as follows: "The Gulf of Riga would allow the Germans to give powerful aid to their army now occupying the western coast of the gulf. With the object of penetrating the gulf, the fleet appeared off Dirben channel, which is the only practical way for large ships to enter. The enemy made three attacks with the object of breaking the mine barrier protected by our fleet. Our Zeppelins and warships co-operated to repel the enemy. The Germans did not succeed in passing our defenses. Three of its ships were damaged by mines near Dirben. None of our ships were lost."

Pays Tribute to Club.

The following poem composed by Mrs. I. E. Tebow, living west of the city, was read at the last meeting of the Herron Homemaking Circle when it met at the home of Mrs. Tebow.

"There is a club, all must confess
Whose kindly motto means success.

Whose object is to reach the top
Keep on trying and never stop.

It is an honor great to be,
A member of the H. H. C.

Come join and be a member kind,
A better chance you'll never find.

Just live the pledge of the H. H. C.
And in the future years you'll be

Both proud and pleased to cheerily say,
I joined the H. H. C. one day.

Then her's to the famous H. H. C.
A better club there'll never be.

Come let us try, both large and small,
To make our club the best of all.

Daughter at Girl Home.

Mr. and Mrs. Armonde Gill of Sheridan, Wyo., announce the birth of their daughter on July 27. Mrs. Gill was formerly Miss Birde Shelton of this city.

Douglas Dinner Party.

Mr. and Mrs. J. E. Douglas of Bedison, were dinner hosts Sunday when they entertained Mrs. J. B. Swearingen of Omaha, Nebr., Mrs. Rebecca Gray and Edward Gray of this city.

Guests at Sherlock Farm.

Mr. and Mrs. John Behm and daughter, Beatrice, of this city were guests of a dinner given at noon Sunday by Mr. and Mrs. Edward Sherlock living near Wilcox.

Klaas Dinner Party.

Mr. and Mrs. E. J. Klaas of Parnell, gave a dinner Sunday noon at which their guests were Mrs. George Reimer and daughter, Dorothy of Kellogg, Ia., Mr. and Mrs. William Klaas and family, Edward Klaas and family, Miss Agnes Klaas and Henry Klaas.

Mother's Circle to Meet.

The Mother's Circle will hold its regular meeting at 2:30 o'clock Friday afternoon in the basement rooms of the library. Some matters of importance are to come up before the meeting and all members are expected to be present.

For Iowa Friends.

Miss Rachel Watson of Pickering, entertained with a Kensington Saturday afternoon in honor of Misses Margaret and Doris Payton and Miss Harriett Van Meter of Van Meter, Ia., who are visiting at the home of the Misses Clayton. The additional guests were Mrs. Byron Hanna, Mrs. Howard Null, Misses Beulah and Crystal Everhart, Misses Nellie and Mabel Clayton, Misses Mabel and Myrtle Null, Miss Marie Burks, Miss Ida Bosch, Miss Eugenia Hull, Miss Lenore Plummer, Miss Bessie Ashford, Miss Goldie Carmichael, Miss Stella Wilson.

Birthday Surprise Party.

Miss Edna Baker planned a very pleasant surprise Sunday for the pleasure of her sister, Miss Ollie Baker to celebrate her birthday anniversary. Miss Baker had been visiting a friend and on her return found the crowd assembled at the Baker country home. The evening was spent with various games and delicious supper served. The guests were Mr. and Mrs. Ova Baker, Miss Chloe Dick, Miss Edith Lutz, Miss Gladys Carden, Miss Ethel Dick, Miss Nellie Carden, Miss Ruth Pitt, Miss Anna Morsey, Miss Edna and Miss Ollie Baker, Henry Lutz, Walter Bright, Walter Smith, Albert Pride, Dennis Morsey and Fay Baker.

Birthday Dinner Party.

A very pleasant day was spent Sunday at the home of Lloyd McGinness, ten miles south of the city, when a party of friends gathered unannounced to celebrate with Mr. McGinness his twenty-ninth anniversary. At noon a delicious dinner was served. The guests were Mr. and Mrs. Peter K. Brown, Mr. and Mrs. Wilson Ellsworth, Mr. and Mrs. Leslie McGinness, Mr. and Mrs. Cal Williams, Mrs. C. B. McAllister, Mrs. Williams, Miss Martha Ellsworth, Miss Mildred Williams, Miss Louise McGinness, Dale McGinness, Henry Ellsworth, Paul Dilts, Donald and Clarence McGinness, Harold Eldon Williams and Leslie Marvin McGinness.

Mrs. Tebow Hostess.

Mrs. I. E. Tebow was hostess Wednesday afternoon to the meeting of the Herron Homemaking Circle, held at

Alderman Yehle Dry Goods Co.
WEST THIRD STREET, MARYVILLE, MO.

**New
Autumn Fabrics**

WE have just receive a shipment of the new FALL Dress Goods. This together with the new McCall Patterns for September affords the Home Sewers the opportunity of having a pretty fall costume at the very beginning of the season.

For early Fall wear, there are no materials more practical than the Serges, Gabardines, Crepes or Ottoman Cloth, but there are various other weaves such as whipcord, Broadcloth, Novelty Suitings, etc., that are in strong demand.

Among the new colors are the African Brown, Tete-de-Negre, Soft Olive Green, Navy and Submarine Blue, Sand, Metallic Shades, Gray, Black, Rich Warm Reds, and numberless mixtures.

McCall Patterns and our new fall materials insure you of beautiful, stylish apparel. Come and let us show you this new goods.

McCall's Magazine for September and Book of Fashions for the fall quarter are here—you should see them.

Get a copy of the new fashion sheets—they are free.

An Attractive Costume Featuring the Deep Armhole and Yoke Skirt

McCall Patterns Nos. 6705-6685, two of the many new designs for September.

Simple, tailored costumes of serge or gabardine and like materials will be favored for street wear well into the fall, with the addition only of one of the smart fur neck pieces; they will be worn under a separate coat all winter through. This combination of designs—blouse and skirt—is suited to serge, gabardine, whipcord, or a silk. The black and white banding on the collar is attractive, and, if fancied, a dark soutache braid may be used on collar and cuffs.

the Tebow country home west of Mary-

ville. While many of the members piled their needles, a program consisting of piano numbers by Miss Esther Tebow, and readings by Mrs. C. T. Porter, Mrs. V. A. Guthrie and Mrs. I. E. Tebow was given. A luncheon of seasonable dainties was served at the conclusion of the afternoon. Those present were Mrs. S. E. Fisher, Mrs. W. R. Taylor, Mrs. V. A. Guthrie, Mrs. Harve Cockayne, Mrs. A. E. Cockayne, Mrs. J. C. F. Taylor, Mrs. R. Neidel, Mrs. Chance Evans, Mrs. Ed Vulgamott, Mrs. Nellie Manley, Mrs. Henry Moore, Mrs. C. T. Porter, Miss Mary Taylor, Miss Esther Neidel, Miss Sarah Taylor, Miss Nellie Fisher, Miss Esther Tebow and the hostess. Mrs. Charles Dempsey, Mrs. E. Everist and Miss Mona Everist were special guests of the afternoon. The next meeting of the club will be on August 15, with Mrs. W. R. Taylor.

Country Club Entertained.

Mrs. Lillie Dean Shelton and Mrs. Ernest F. Shelton entertained the members of the Country Club with an all day house party Thursday at the Shelton country home west of the city. The day was also the third birthday anniversary of Master William Shelton and he entertained the little folk of the club with a picnic dinner to celebrate the day. The guests included Mrs. J. E. O'Neal and daughter, Edna, of Maryville; Miss Martha Cain of Denver, Colo.; Mrs. Delbert Vert, Mrs. Frank Hall, Mrs. W. S. Job, Mrs. J. C. White, Mrs. Robert Noakes, Mrs. O. L. Shell, Mrs. O. J. Willhoyte, Mrs. A. K. Willhoyte, Mrs. W. A. White, Mrs. T. M. Trullinger, Mrs. Earl Trullinger, Mrs. M. J. Willhoyte, Mrs. D. H. White, Mrs. Rolla White, Mrs. Lou Thompson, Mrs. Earl Duncan, Mrs. William Job, Mrs. Harriett Davenport, Mrs. W. H. Davenport, Mrs. Byron Croy, Mrs. Harve Thompson, Miss Clydell White, Miss Edna Davenport, Miss Wilma Hall, Roberta Willhoyte, Jean Croy, Vivian Hall, Lucile Duncan, Augusta May Vert, Lois Margaret and Pauline Thompson, Genevieve Williams Byron Croy, Jr., Raymond Job, Herman Kenneth and Shelton Thompson

"Haines Bunch" Picnic.

The "Haines Bunch" will hold a picnic and out-door merry making this evening in the woods at Elm Grove. Miss Katherine Vaughn will be a special guest of the affair.

For Nebraska Guests.

Mrs. Mary Albright and Miss Dorothy Albright of Logan, Neb., who are visiting in the city were guests of a dinner given last night by Mayor U. S. Wright and Mrs. Wright.

To Be Wedded Tomorrow.

The marriage of Miss Esther Klaas, the daughter of Mrs. Louisa Klaas, and Mr. Wyatt Miller of Parnell, will take place tomorrow morning at St. Joseph Catholic church of Parnell. A reception and wedding dinner at the home of the bride's mother will follow the church ceremony.

Townsend to Return.

Mr. and Mrs. Ferdinand Michau Townsend and small son, Edward Bohm, who have been visiting in Denver, Colo.,

with Mrs. Townsend's parents, Mr. and Mrs. Henry Bohm, will arrive in Maryville Thursday noon. They will be accompanied by Mrs. Anna M. Hagins, who has been with them in Denver. Mr. Townsend joined them last week for a short stay. The Denver Post of Sunday contains a large picture of Mrs. Townsend and her son, which shows this charming young mother and beautiful baby boy in a most attractive pose. Mrs. Townsend is a former Denver girl and her visits in her home city are crowded with social gaieties of which she is the motif. Her small son has been accorded a large share of admiration and attention during the home visit this summer.

TEUTONS CLOSING IN ON RUSSIANS

Small Strip of Territory Across Which Slavs May Escape.

PRAGA FALLS TO GERMANS.

British and French Troops Reported to Have Captured Trench at Hooze. Attitude of Poles Toward New German Regime a Puzzle.

WAR SUMMARY

The Teutonic allies continue successfully their operations against Russia in northwest Russia and in Poland; an engagement to drive the remaining Russians from the Galicia has begun; the British have recaptured from the Germans in Belgium trenches taken from them recently through the use of flame projectors and have captured 700 yards of additional terrain there; French airmen have bombed Saarbrücken, in Rhenish Prussia, to the northeast of Metz; the Italians and Austrians are still in heavy combat.

Thus may be chronicled in brief the latest phases of the war as they have been made public through the various chancelleries.

London, Aug. 10.—While the Austro-German armies made fresh progress in their campaign against the Russians, the conflict on the western front took on new impetus. Sir John French, commander of the British expeditionary forces, reporting a fierce artillery engagement, in which British and French forces captured trenches at Hooze along a front of 1,200 yards.

The occupation of Praga, reported by Berlin, brings to a dramatic climax the first phase of the drive at the Polish capital and the region of eastern Poland, of which Warsaw is the dominating center.

Praga is essentially a part of the capital, with great railway stations on the roads running to Petrograd and Moscow. Few details have been received of Grand Duke Nicholas' final stand at Praga, but the indications are that the withdrawal of the Russians became imperative to escape the German lines gradually drawing together in their rear. The strip of territory across which the Russians may withdraw to safe positions now is hardly more than thirty miles across.

Besides this development movement east of Warsaw, Berlin reports a steady hammering at the great Russian fortress of Kovno and Lomza, the chief significance of which is their proximity to the lines of railway communication to Petrograd. Novogorodsk is the only place west of Warsaw at which a Russian garrison remains and its fall seems imminent.

The attitude of the Poles toward the new German regime is arousing deep interest, as the occupation of Warsaw unites for the first time three branches of the Poles heretofore divided among Russia, Germany and Austria.

Under the Russian regime Poland has been a hotbed of disorder, and it remains to be seen whether control of this occupied territory will be as difficult a problem for Germany as it has been for Russia.

The official report from Berlin characterized the operations around Hooze as a battle, but Sir John French's report changes them to have been another trench fight, preceded by a heavy artillery exchange and resulting in the recapture by the British of nearly a mile of trenches previously taken by the Germans. This has served to divert public attention temporarily from the magnitude of the German sweep in the eastern field, but operations in the west still lack general significance.

SHELLS HIT EVERY 5 MINUTES

Only One German Giant Howitzer Bombarding French City.

Dunkirk, Aug. 10.—The bombardment of Dunkirk by the giant German gun operating from Flanders permits the carrying on of the business of the city only four and a half minutes out of every five.

There is only one gun being used in the bombardment, and the shells come regularly every five minutes. The people of the town take advantage of the interval between an explosion and the coming of another shell to transact business, allowing themselves about half a minute to make for their cellars.

Abolishes Veto on Military Service. Ottawa, Ont., Aug. 10.—Wife and mother have had their day in Canada, so far as forbidding their men folk to go to war is concerned, and that day is past, according to official announcement made by the military department. It will no longer be possible, as it used to be, for a wife to keep her husband or her sons under eighteen from enlisting by withholding her consent.

Military Honors For General Tracy. New York, Aug. 10.—General Benjamin F. Tracy, former secretary of the navy, who died here Friday, was buried with military honors.

Britons Retake Hooze Trenches. London, Aug. 10.—British troops have recaptured 1,200 yards of trenches from the Germans at Hooze, near Ypres.

Shrine Founder Dead.

Rochester, N. Y., Aug. 10.—George P. Loder, known throughout the country as the father of the Mystic Shrine, died after a long illness, aged seventy-three years. He was imperial potentate emeritus of the Shrine.

KEEPING QUALITY OF CORN MEAL.

Stone-Ground Meal Spoils Sooner—Better Flavor Than Roller Milled.

Investigations on the keeping qualities of corn meal, recently completed by the experts of the Department of Agriculture, show that stone-ground meal, which on account of its rich oily flavor is so desired in the palatable muffin, hoe-cake and pone, spoils much more quickly than meal made in the modern mill by the roller process.

For this reason the stone-ground meal should be eaten as soon as possible after milling. In this respect it is like milk and cream which are usually consumed within a few hours after being produced, and which under the most favorable conditions can be kept in their natural state for only a short time.

The roller mill meal is, in its keeping qualities, more like butter which can with proper care be kept in good condition, not indefinitely, but for a reasonable length of time.

The palatable, characteristic taste of the stone-ground meal is largely due to the oil contained in the germ of the corn. As the whole kernel of corn is ground in the stone or French burr mill this oil is pressed out in the process and imparts its flavor to the meal.

In the roller mill process the germ is taken from the corn before rolling by a machine called a degerminator, and but little of the oil gets into the meal. The germ, if allowed to remain in the meal, causes it to spoil quickly.

So the very thing that imparts the desirable flavor to the meal will also injure its keeping qualities. In some cases in stone-ground meal the germ is removed by bolting after grinding. This improves the keeping quality over that of unbolted meal but does not make it equal in keeping qualities to the meal made by extracting the germ before milling.

The term "water-ground" meal applies to the product ground by stones without regard to whether the motive power is water, steam or electricity. Nearly all stone grinding mills once were operated by water power while roller mills were usually operated by steam, and so the term "water-ground" was used to mean the same as "stone-ground."

In later years, however, steam and electricity have almost entirely displaced water as a motive power in mills. It is the milling machinery and not the source of power, that determines the character of the meal that may be produced.

The keeping quality of corn meal is also greatly affected by heat and moisture. Other things being equal, the drier the meal the longer it will keep. It is the custom in larger mills and in some smaller ones to artificially dry the meal after milling.

In wet sections of the country, or in wet weather anywhere, dried meal will very quickly absorb moisture from the atmosphere. Any kind of corn meal will keep much longer in cold weather than in warm weather. It should, therefore, be stored in a dry, cool place.

Four Alleged Hoochie Men Arrested. Sturgis, S. D., Aug. 10.—Sheriff Skutt of Mead county arrested and brought to Sturgis Arthur and Josh Goffey, Max Pfeiffer and Chick Manson, all of whom are charged with horse stealing. Sheriff Skutt recently returned from Miles City, Mont., where two other men are under arrest on the same charge, supposed to be implicated with the gang working in Back Hill country.

Kaiser's Court Pianiste Deported. London, Aug. 10.—Maria Cecilia Natalie Panthe, court pianiste to Emperor William, was arrested in London and deported from Tilbury.

GRAIN AND PROVISIONS

South Omaha Live Stock.

South Omaha, Aug. 10.—Cattle—Receipts, 7,300; 10@15c lower; beef steers, \$6.65@9.85; cows and heifers, \$3.75@8.50; stockers and feeders, \$5.50 @8.50; bulls, \$5.25@7.25; calves, \$7 @10. Hogs—Receipts, 5,000; 5@10c higher; heavy, \$6.25@6.60; light, \$6.60 @7.25. Sheep—Receipts, 18,000; steady; lambs, \$7.50@9; wethers, \$6.75@6.50; ewes, \$5@6.50.

One pound of good bread is as nutritive as 2 1/2 pounds of potatoes.

STOCK PRICES AGAIN GO UP

Cattle, Hogs and Sheep Rise 10 to 15 Cents—Corn Outlook Better—Miner Future.

Kansas City, Aug. 9.—Light receipts of cattle last week resulted in a gain of 15 to 25 cents in prices. The supply today is 13,000 head here, and 22,000 in Chicago, sufficient grounds for cattle to 10 lower prices on bulk of the week, a few steers 10 to 15 lower. Missouri corn and blue grass steers brought \$9.90, and one lot was held at \$10, unsold at noon but with some show of getting the price.

Middle grades of native grass steers sold at \$7.75 to \$8.50, bulk of the good Kansas pasture steers, weighing 1,200 to 1,375 pounds, at \$8.40 to \$8.75. Two cars of Idaho steers arrived, one car of thin feeders at \$7.75, the other killing steers around \$8.15.

In the quarantine division receipts were confined to Oklahoma grass cattle, including wintered steers at \$7.25 to \$7.60, straight grassers \$6 to \$7.25. Stock grades of cattle sold firm today, largely at \$6.90 to \$7.75, except some of the low priced steers, at \$6.50 to \$7.15, which were 10 lower than a week ago. Fleshy feeders are not getting the usual competition they enjoy at this season.

Dealers expect the trade to open up within a week or two, as soon as corn prospects are better defined, although a good many cattle feeders will stay out of the game this year because of their losing experience last year, due to foot-and-mouth disease. A little action on choice fed steers would stimulate the demand for heavy feeders immensely.

Hogs sold 10 higher today, following better prices each day since the middle of last week. There is not such a wide spread as formerly, though grassy hogs are still cut severely. Receipts show an increase over last Monday, though still light, at 6,500 head, top

price \$7.42 1/2, bulk of sales \$6.85 to \$7.40.

Hogs weighing 200 pounds brought \$7.40 and weights around 260 pounds sold up to \$7.10, 300 pound hogs stopping at \$7.00. Packers paid \$7.40 for light hogs.

Sheep and lambs sold 10 higher today, six doubles for Idaho lambs weighing 63 pounds sold at \$9, with a 15 per cent cut to feeders at \$8.00, the feeder end weighing 47 pounds. Arizona arrivals to the number of 3,000 head, and sold at \$8.60 to \$8.80, 10 to 15 higher. Fair to good native springs brought \$8.75, fat ewes \$6.60 to \$6.75 and breeding ewes sell at \$6.50 to \$7.50.

* STOCK MARKET *

CHICAGO.
Cattle, 4,000. Market, slow. Estimate tomorrow, 16,000.

To Enter the Shenandoah Fair.

A. D. Saunders of Maryville, has gone to Shenandoah, where he intends to enter his pacing horse, Ban Dello King, in the county fair races there, beginning today.

Season Fair Tickets

ON SALE AT FAIR HEADQUARTERS

Six Big Days These Tickets Six Big Nights

Are Good for any one member of family day or night show. For instance, daughter in forenoon, wife in afternoon, father at night. Good to all parts of the grounds, grandstand and centerfield. I have been asked why we have raised the price on season tickets. Last year the reduction was one-fifth, this year one-third, and on autos, almost one-half. I only ordered 1000 of these tickets. Take advantage while they last.

Season Tickets \$3.00

Auto Season Tickets \$2.50

REGULAR ADMISSION:

Adults, Day Show, 50c

Adults, Night Show, 25c

Children, 7 to 12 years old, 25c

To all parts of the grounds, grandstand and centerfield FREE.
No Extra Charge Every Time You Turn Around.

The Only Fair With One Admission
